## BOARDMAN NEWS

*By Elaine Fisher*

Mrs. Harry Ford and Mrs. Al Geiss gathered up a group of ladies and surprised Mrs. Jack Gorham with a galloping tea Thursday afternoon.

A bridal shower is to be held Friday afternoon at the home of Mrs. Nate Macomber in honor of Mrs. George McNabb, the former Janet Gorham.

Boardman won the game from Condon Saturday night on the home floor with a score of 22 to 29. The team has greatly improved since the addition of a new player.

The Wagaman family who moved from here a short time ago to Rieth have moved back on the project.

Mr. and Mrs. Simila and family of Portland were week end visitors on the project.

Bob McCutchen, en route from Vancouver to Pendleton, stopped at the John Fisher home Sunday.

A bridal shower was held Wednesday

day for Mrs. Doris Getchell. The bride received many lovely gifts.

George Corwin was in Heppner on business Monday and Tuesday. Mr. Mallery was in charge of the school during his absence.

The annual health examination was given Monday to the first, 4th, 7th and 10th grades by Dr. Belt of Hermiston and County Nurse Vale.

Miss D. Peyralans spent the week end in Portland.

E. Lierman spent the week end in Portland.

Rev. and Mrs. Walpole and family were dinner guests of Mr. and Mrs. John Fisher Sunday.

## OREGON WILDLIFE FEDERATION TO MEET AT COLLEGE

Oregon State College—A second two-day meeting of the Oregon Wild-

life federation has been called by President W. J. Smith to meet at Oregon State college February 13 and 14. This second general meeting of the federation was arranged tentatively at the annual conference late in November.

Aside from considerable organization business of the federation itself, items to be taken up include a consideration of bills before the present legislature dealing with wildlife conservation and related matters in this state, says Smith.

President Smith reports that following the fall conference, when action was taken urging the sale of land around Summer lake for a public shooting ground and refuge, the state land board has approved such sale. Smith is asking that each branch of the federation have at least one delegate at the February meeting.

## U. S. Army Seeks Young Men as Flying Cadets

**WINGS OVER AMERICA**

**BE A FLYING CADET IN THE U. S. ARMY**

**RAILWAY EXPRESS AGENCY**

"Wings Over America," U. S. Army's new recruiting poster for flying cadets, speeded from New York by air express, was affixed simultaneously in every city, town and hamlet in the country to space donated by Railway Express Agency on its 12,000 trucks. Ceremony at North Beach Airport, New York City, was witnessed by (left to right) F. E. Williamson, president, New York Central System; L. O. Head, president, Railway Express Agency; Brig. Gen. W. V. Carter, U. S. Army; Capt. E. V. Rickenbacker, president, Eastern Air Lines, and other men prominent in army and transportation circles.

## CHANGE IN BANG'S LAW ADVOCATED BY OREGON DAIRYMEN

A change in Oregon's Bang's disease control law to permit the use of calfhood vaccination as well as the present test-and-slaughter method, will be advocated before the present Oregon legislature by the Oregon dairymen's association as the result of action taken at the recent annual convention held in Grants Pass. The disease-control committee, headed by E. L. Peterson, Coquille, considered all angles of the Bang's disease problem, including the newest findings on calfhood vaccination, and then submitted a report agreed to unanimously by all concerned.

The proposed law changes would permit the use of the calfhood vaccination method under definite restrictions as outlined recently by Dr. John R. Mohler, chief of the federal bureau of animal industry. It was pointed out that calfhood vaccination will apparently be a valuable supplement to present highly successful control methods, but that it involves close attention to exacting requirements if it is to be successful, and under no circumstances may it be used safely by an untrained person.

Oregon has consistently led the nation in the fight against Bang's disease, partly as a result of the pioneer work done by the veterinary department at Oregon State college.

The dairymen's association also will sponsor a bill to raise money by a small assessment against butterfat sales, the resulting fund to be used in sales promotion work either in Oregon or in cooperation with national campaigns. The assessment of one-half cent per pound would be made only in one month each year, and would be a direct assessment against the producers, hence would have no effect on prices paid by consumers.

Oscar Hagg of Reedville was re-elected president of the association; E. L. Peterson, Coquille, and Lee Holliday, Klamath Falls, vice-presidents, and Roger Morse, Oregon State college, secretary-treasurer. Directors chosen include W. A. Johnson, Grants Pass; Dick DeJong, Amity; Fritz Beltz, Tillamook, and James McCracken, Ashland. Next year's convention site will be selected later by the board of directors.

### METHODIST CHURCH

*Stearns Cushing, Pastor*

"Christianity and Racial Adjustment" will be the sermon topic for the observance of Race Relations Sunday, February 9, at the morning worship service at 11 a. m. Problems of human adjustment are always difficult, especially so when racial factors are involved. Yet it is obvious that amicable human adjustments are indispensable to human happiness and even to survival. From the standpoint of religion also nothing is more important, for right human relations are of the very essence of religion on the earthward side.

Church school meets at 10 o'clock with a class for everyone. In the evening the Epworth League convenes at 7 p. m. with Miss Zelma Sale as the leader on the subject, "Being Christian at Home."

### HERMISTON BAPTIST CHURCH

*Grayden D. Loree, Pastor*

Are you attending Sunday School? If not, you are missing one of America's greatest opportunities. Our Sunday School meets at 10 o'clock.

Our theme for the Sunday morning worship service will be "The Second Coming of Christ." Is Christ coming back? When? Or has He already come? Paul sets us right on these questions in the Thessalonian letters.

B.Y.P.U. meets at 7 o'clock. At 8 o'clock the pastor's subject will be "In His Steps."

### PENTECOSTAL TABERNACLE

*S. E. Graves, Pastor*

Our children are learning to live, to think for themselves and forming habits, but are we helping them by filling their minds with good seed? Why not start forming the habit of taking them to Sunday School and church?

Sunday, 10:00 a. m., Bible school. At 11:00, morning worship. Also Junior church for the children. At 7:30 evening service.

Wednesday at 7:30 p. m., a wonderful Bible study in God's Holy Word and prayer meeting. Watch for announcements of coming missionaries who have returned from West Africa.

### PILGRIM HOLINESS CHURCH

*C. R. Bennett, Pastor*

Sunday school at 9:45 a. m. Lesson: "The Christian Attitude Toward Possessions." Lk. 16:15-15, 19-23.

Morning worship at 11:00. Message by pastor.

Young people's meeting at 7:00. Junior meeting at the same time. At 7:45, evening worship.

Church prayer meeting Wednesday

## NATURALLY, Happy Thot Jersey Farm Milk Is Better!

It's the milk from pure bred Jerseys which have been bred for centuries to insure a better product.

Not only is our milk richer in butterfat but we believe that it has the lowest bacteria count in town.

We are quite proud to announce that our latest count from the State Department of Agriculture shows the following Standard Plate count of 200 bacteria per c.c. for our raw milk.

With a tolerance of 10,000 bacteria per c.c. for Grade A milk, we feel that with a count of only 200 that we really have something. Call us and order a trial quart today.

day at 7:45 p. m. Cottage prayer meeting Friday at 7:45 p. m. Go to church Sunday. God alone satisfies.

## ILLEGAL TO CUT TAILS OF COWS

Is it legal to cut off a cow's tail? And how about plucking live geese?

These two humane-angle queries were directed to Dr. W. H. Lytle of the animal division of the state department of agriculture, whose answer in each instance was "no."

A farmer in one section of the state was reported to be docking the tails of his cows, leaving them about a foot long. Presumably the tails were a nuisance at milking time.

Dr. Lytle pointed out that there is a law which makes it illegal to mutilate animals. A jail sentence and/or fine up to \$100 is the legal penalty. This same law exempts, however, the dehorning of cattle or the docking of horses or sheep as practiced by stockmen.

On the premises that geese are animals, this same law would make illegal plucking of live geese.

## GARDEN CLUB CHATS

*by Mrs. Vera Doyle*

The many kinds of roses may be roughly grouped into three main classes, Bedding roses, Climbers and Shrubs.

Bedding roses—These are grown for display in gardens and for cut flowers, both out of doors and under glass. There are two types in this class that are important, the Hybrid Teas and Hybrid Perpetuals.

Hybrid Teas are the ever-blooming quality of the Teas with the hardiness of the Hybrid Perpetuals, and

have added to the color range of both. They are by far the most important roses grown today.

Teas are only valued for growing under glass or in mild parts of the country as the Pacific Coast. They too are everblooming but the color is restricted. There are no good red, scarlet or deep yellow varieties.

Hybrid Perpetuals are hardier than the Hybrid Teas but need winter protection. They usually bloom in early summer and sometimes bloom a second time in the fall.

The Polyanthas of the bedding roses are used for matted beds, for edging, and for low, everblooming hedges.

Climbing Roses—These fall into two groups. The large flowering and the small flowers in clusters, commonly known as Ramblers. The climbers' success depends almost entirely upon their hardiness. The large flowered are derived from the Hybrid Perpetuals and Hybrid Teas. They have no tendrils and do not support themselves by twining. Therefore it is necessary to train and tie the canes as they grow.

Shrub roses are used the same way, small shrubby as spires, forsythias, lilacs, etc., are used. Preferably as border and landscape schemes. These are known as the Ragosa roses. They are thorny stemmed, rough, wrinkled foliage, and generally fragrant. Flowers are irregular.

Next week we shall give you the general pruning rules for these three classes.

Again we shall meet in the library at 2:30 p. m. February 14, in the basement. Mrs. Mabel Gimble will arrange the program.

K. U. J., February 14, at 1:45 p. m. will give a garden talk on roses. "Varieties for the Rose Garden Beginner" prepared by Dr. F. R. Hunter will be given. Mrs. Daniel Heffner will discuss "Color" in flower show judging.
