UMATILLA NEWS

By Mrs. Glenn Ostrom

Miss Betty Britton, secretary of the Y. W. C. A. at Portland, spoke to the high school students last Wednesday morning on the "Philosophy of Life." Miss Britton was an interesting speaker and the students enjoyed the lecture. She was here in

connection with the National Christian Mission.

Mr. and Mrs. Ervin Chapman attended the birthday dinner of Mrs. Chapman's grandmother, Mrs. J. A. Graybeal, in Irrigon last Wednesday evening. She was 82 years old. There were about 22 relatives present at the occasion.

The high school girls and their instructor, Miss Elva Twidwell, were invited guests at the Irrigon play

day last Wednesday afternoon. Goldie Barboletos, local student, was presented with a medal for sportsmanship and LaVelle Markham of the Irrigon school received a medal for leading in sports.

Mrs. Wm. Conlon returned home last Wednesday from two days spent in Portland where she visited her sister and daughter Mildred and attended the concert given by the famous singer, Marian Anderson.

Mrs. G. J. Kendler was hostess to the Ladies Altar Society at her home Thursday afternoon. The ladies spent an hour on religious study and then spent the rest of the day quilting.

Wednesday morning Arthur Norris took his science class on a tour of inspection of the new houses being built here to show the class construction methods.

Mrs. Frank Jewett is quite ill at her home east of town.

Mr. and Mrs. M. M. Imes and son Charles of La Grande spent the last of the week here while Mr. Imes was here due to the strike of the Asbury Transportation Co. which ended Friday morning.

Mr. and Mrs. Harry Rodenbough

spent Friday in La Grande where they visited their daughter, Doris, who is in a beauty school there. The day was her birthday.

The local town girls played the high school girls in a game of basketball and lost. The married men played the single men and won in a game Friday night. The game was a benefit to send the high school boys to the tournament at Salem.

Bob Bates, who has been employed as a truck driver for the Asbury Transportation company, has taken a job with the Sun company in Hermiston.

Glenn Ostrom spent Friday in Pendleton where he drove his car which had been fixed after a wreck two weeks ago.

Eddie Kauffman's father, who makes his home with him, has been quite ill since Friday.

Mr. and Mrs. Orlin Lane of Walport spent Saturday and Sunday here visiting at the home of his parents, Mr. and Mrs. Herbert Lane and family. Lane is in the army stationed there and has only recently been married.

**WATCH THIS MACHINE WORK,
MR. DEFENSE TAXPAYER!**

★ Busy little electric cutters like this are humming at top speed in thousands of factories, slicing out uniforms—tents—tarpaulins—all kinds of cloth goods for the army and navy and the people who do the everyday work at home. The electricity they use isn't a drop in the bucket. It costs practically nothing a day. But let that electricity fail—in ANY defense

plant, big or little—and all work stops. Let the service grow inefficient, and defense production slows up, costs more.

Listen, Mr. Taxpayer—YOU pay the national defense bills. You want to keep the best electric service in the world at the lowest cost in the world—the service that private enterprise invented, created and perfected for Americans!

ELECTRICITY ANYWHERE...anytime
...any amount of it!

America has 4½ times as much electricity as it had in the World War. Three times as much as the Axis nations combined.

But what was needed to make the nation's supply of power completely available, completely efficient, was *interconnection*.

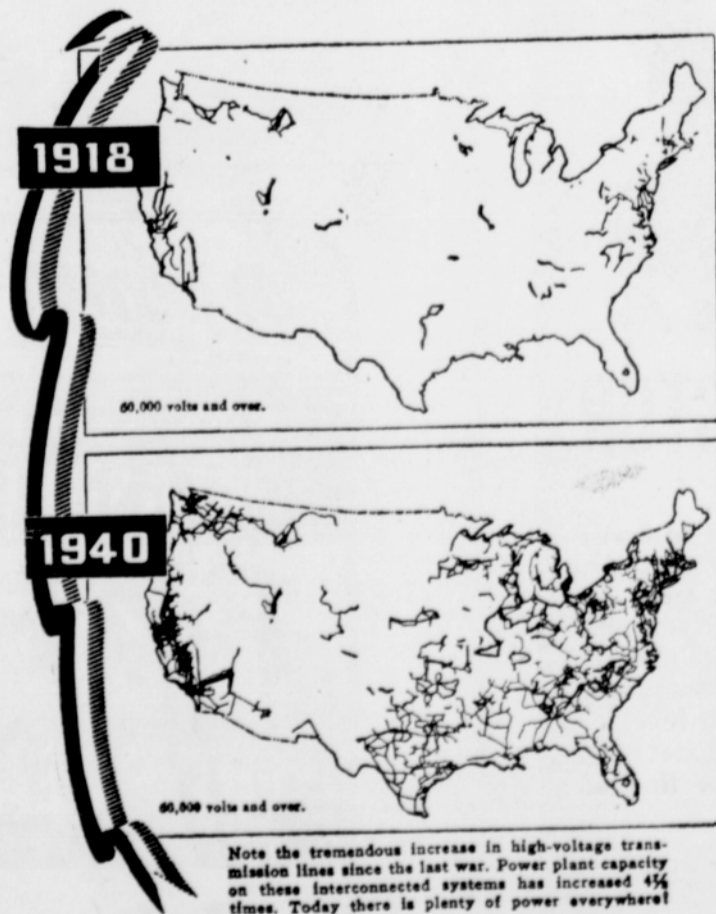

It took brilliant engineering and billions of dollars to transform the skeleton power map of 1918 to the full-grown interconnected power systems you see on the map of 1940.

Now these transmission lines completely serve every major industrial area of America with a supply of power from many sources, safe from interruption. They increased efficiency, made it possible to utilize a bigger percentage of each plant's output, and reduced costs and rates.

That is AMERICAN ENTERPRISE at work!

What we want you to know, Mr. Taxpayer, is that this nationwide American system of power plants, power lines and power SERVICE is fulfilling and can fulfill every demand that can be laid on it by the needs of national defense—and do it better than any other system in the world.

And YOU don't have to dig down in your pocketbook for a single extra tax dollar, or a million or a hundred million extra tax dollars, to pay out for something you already have!

PACIFIC POWER & LIGHT COMPANY

30 Years of Public Service

sons of Kennewick spent Saturday here visiting friends. The Millers only recently moved to Kennewick from here.

**NATURALLY,
Happy That
Jersey Farm
Milk Is Better!**

It's the milk from pure bred Jerseys which have been bred for centuries to insure a better product.

Not only is our milk richer in butterfat but we believe that it has the lowest bacteria count in town.

We are quite proud to announce that our latest count from the State Department of Agriculture shows the following Standard Plate count of 200 bacteria per c.c. for our raw milk.

With a tolerance of 10,000 bacteria per c.c. for Grade A milk, we feel that with a count of only 200 that we really have something.

Call us and order a trial quart today.
