NATURALLY, Happy That Jersey Farm Milk Is Better!

It's the milk from pure bred Jerseys which have been bred for centuries to insure a better product. Not only is our milk richer in butterfat but we believe that it has the lowest bacteria count in town. We are quite proud to announce that our latest count from the State Department of Agriculture shows the following Standard Plate count of 200 bacteria per c.c. for our raw milk. With a tolerance of 10,000 bacteria per c.c. for Grade A milk, we feel that with a count of only 200 that we really have something. Call us and order a trial quart today.

THIS IS THE WAY WE PAY FOR OUR ELECTRIC REFRIGERATOR...

"OUR ARMS ARE FULL of perishable foods which we bought at the usual week-end sales. Everything will keep perfectly all week, for our modern refrigerator has special compartments for storing each kind of food. We'll keep all left-overs and make them into tasty dishes. Planned buying and storing not only gives us extra time to do things we like... it saves us enough on food bills to pay for our refrigerator."
