The JOHN DEERE IS SO SIMPLE I can make most adjustments myself. For instance, I can tighten the Clutch in 5 Minutes. Reline it in 15 Minutes.

How is it on Upkeep Costs?

NO OTHER TRACTOR IS SO SIMPLE AND SO EASY TO SERVICE AS A JOHN DEERE TRACTOR

YOU don't have to be a skilled automotive mechanic to service a John Deere General Purpose Tractor—it's that simple. You can inspect and adjust practically all working parts from a standing position. Brakes and clutch can be adjusted in less than 5 minutes. Valves and tappets are located in the cylinder head—they're easy to get at. Everything is simpler—easier to understand in the John Deere. That's why the average owner does 75% of his own servicing without any outside help.
