New Ventilator Solves Fresh Air-Draft Problem

For the family that divides itself in winter into the advocates of fresh air and the enemies of drafts, peace is now possible with the perfection of a new ventilator, which has recently appeared on the market.

Every winter, particularly in sleeping chambers, a great many people feel that they are forced to choose between suffocating or resisting a freezing gale. The need of fresh air is recognized, and the danger of drafts is equally well established; the problem has been in selecting a lesser evil.

This new ventilator provides a solution by allowing air to enter the room quietly and effectively without creating enough movement of air to disturb the most sensitive person.

Simple in construction, the ventilator consists of two vented plates which overlap, but do not touch and which have between them a copper screen. The edges of each plate are turned in such a way that they are opposite the opposing plate, so that the air is made to turn two corners by the baffle plates of the ventilator.

In this way, the force of the wind on the outside is checked so that the movement of air on the inside does not extend any more than four or five inches from the ventilator. While the baffle plates do not hinder fresh air from entering freely through the ventilator, they do prevent rain, snow and a large percentage of dust from passing through. Also, the installation of this ventilator will not interfere with the easy opening and closing of the window, because it goes on the outside, with a rubber composition flap which seals the space between the window frame and the ventilator.

They are easily installed without the services of an expert. Adjustable brackets at each end of the unit allow for variations in the width of windows and require but two screws each. The ventilator slips down between the brackets and can be inserted or removed effortlessly.

Changes in Industry Speeded Up by Science

Many years ago Lord Kelvin said that in order to understand anything one must measure it. Industry on the whole was rather slow to learn the lesson, but today there is a new standard of certainty, based on scientific measurement, which has invaded every branch of the industrial and engineering field.

To take a few examples from the railways: The comfortable riding of rail coaches, the sources of noise, the movement of a wheel along the rail, the vertical movements of the rails when under load, and the resistance of materials to wear—these are no longer left to personal impressions, which are so liable to error and leave no record for subsequent comparison. Measurement provides a new basis for progress.

"The sovereignty of man lieth hid in knowledge." There is every reason to be proud of the achievements of this country in the application of science to the needs of the world today, writes Sir Harold Hartley in "Technology Review." Americans were the first to realize for their own vast homogeneous internal market the immense potentialities of mechanized production—production which was made possible by scientific control and which has done so much in so many ways to diversify the pattern of life for this generation. But in our technical enthusiasm we must not forget that the human problems of management present much more difficulty than the choosing and working of inanimate material.

Women Run Hospitals

For many a year, women have claimed as their own the high executive positions in the profession of hospital administration.

Dr. Malcolm T. MacEachern, director of the American College of Surgeons, pointed this out recently.

"The reason for this," said Dr. MacEachern, "is the close relationship between nursing and hospital administration. Nurse executives are concerned with the problems of hospital administration and thus are prepared for the duties of hospital management."

The high percentage of women in the profession, believes Miss Nellie G. Brown, superintendent of Ball Memorial hospital, Muncie, Ind., the famed "Middletown," is due to women who started as head nurses in the small hospitals, which total 75 per cent of the nation's general hospitals. A "small" hospital is one which has fewer than 100 beds.

"Often, a superintendent of one of the smaller hospitals is simply a head nurse with some idea of menu making, X-ray and the workings of the laboratory," said Miss Brown. "In time, the small place becomes larger. Her own abilities increase and she finds herself an important administrator of a thriving hospital."

Coyotes on Outskirts of Spokane
Coyotes on the outskirts of Spokane are increasing, according to Floyd Priest, trapper and cattleman. Last winter Priest bagged 214 of the animals, 28 of which he got within six miles of the city limits. Priest has been trapping for years and said his catches close to the city were not so good as a decade ago.

IRRIGON NEWS ITEMS

By Mrs. W. C. Isom

Mrs. Becker from California is a business visitor here this week.

Mr. and Mrs. Melvin Gradon from Gresham, Ore., visited Mrs. H. C. Warner Saturday.

Lionel L. Cork of Hood River visited his sister and family, Mr. and Mrs. W. C. Isom several days last week.

Mr. and Mrs. Baird left for Heppner Saturday.

Mrs. Hoaglan, who has been visiting her sister at John Day, returned home Saturday.

Mr. and Mrs. Jim Cross from California are visiting relatives and friends in this vicinity.

Ray Sparks and Joy Markham visited friends in Pendleton Sunday.

Mr. and Mrs. Mack from Hood River visited Mr. and Mrs. W. C. Isom Thursday.

Mr. and Mrs. Geo. Rand and Mr. and Mrs. Batie Rand and two sons were dinner guests of Mrs. James Warner Sunday.

Miss Lucile Jones won first in the National Defense contest which was sponsored by the Elks.

June Stephens, who is working at Holman visited her mother, Mrs. E. Stephens over the week end.

Ernest Stephens, who is employed at Boardman, visited his family Saturday evening. Jean Stephens left for Hermiston Monday where she is employed at the Monte Hedwall home.

Mrs. Shirley Linkhart and daughter Marjorie from Portland are visiting with Mrs. Linkhart's parents, Mr. and Mrs. Frank Fredrickson.

Revival meetings will continue through the week at the Pentecostal church.

PINE CITY NEWS

By Mrs. Bernice Wattenburger

Mr. and Mrs. E. B. Wattenburger had the misfortune to have their house catch on fire last Friday. A strong wind was blowing and Mrs. Wattenburger had a fire in the front room stove. Fire caught on the roof on the dry shingles. With the aid of the school children and teachers, and help from the neighbors it was put out by pumping water from a pitcher pump. The front room and bed room was ruined by fire and water. Two sections of the roof were burned through. Mr. and Mrs. Wattenburger want to thank the school children, teachers and neighbors very much for their quick help, and also the three men from Hermiston that jumped to help. The names of the men were not known.

Mr. and Mrs. R. E. McGeer left Sunday for Redmond and Klamath Falls for a week's business trip.

Mr. and Mrs. Marion Finch and daughters were Pendleton callers Saturday.

Mr. and Mrs. Walter Wigglesworth and family of Echo and Mr. and Mrs. Floyd Van Orsdale and Miss Othella Brandhogen of Pendleton were Sunday dinner guests of Mr. and Mrs. E. B. Wattenburger.

Mr. and Mrs. Earl Wattenburger and son Freddy of Pasco spent Saturday night and Sunday with Mr. and Mrs. A. E. Wattenburger.

Mrs. R. L. Brewster of Spokane, mother of Mrs. McGeer, is staying this week at the McGeer home taking care of the children.

Miss Mary Daley has stopped her training at the St. Anthony's hospital in Pendleton and is soon to be the bride of Mr. Bill Doherty of Alpine.

Miss Katherine O'Brien is on the sick list this week.

Hollywood GOOD LOOKS GOOD HEALTH WEEK

Get Amazing Bargains! Win Valuable Prizes!

We're offering you special "Star" values of MCKESSON'S drugs and toiletries. Trustworthy, quality products, at bargain prices! AND you have a chance to win a valuable prize in a fun-to-do, simple-as-pie "dot" contest. COME IN TODAY!

A Few of the MCKESSON "STAR" VALUES!

- FREE! Full size can of MARATHON FOOT POWDER with SOROTONE. A 75¢ Value for 47¢.
- FREE! Three packages of BUBBLE BATH with 25¢ for or tube of YODORA DEODORANT CREAM. 40¢ Value for 25¢.
- SPECIAL! Two bottles of ASPIRIN TABLETS (N.F.) Bath for 49¢. Each bottle contains 100 fine ASPIRIN TABLETS.

Albion Cleansing Cream 47¢
Antacid Powder . . . 47¢
Citrated Carbonates . . . 79¢
Milk of Magnesia, 16 oz. 59¢
Calox Anthracite, 16 oz. 59¢
Shavani Brushless Shave 39¢
Brace-Hair Dressing, 8 oz. 69¢
Witch Hazel, Pint . . . 29¢

Hermiston Drug Co. HERMISTON, OREGON

Ray Ayers spent last Thursday and Friday at home helping build a fence.

Jim Ayers and Jerry Coxen of Hermiston spent Sunday at the C. H. Ayers home.

Mr. and Mrs. C. H. Bartholomew spent last week in Pullman, Wn. While there Mrs. Bartholomew visited Freddie Hamrell who now is Mrs. Scott. She taught school at Pine City a number of years ago. She also visited Stella Carlson, daughter of Mr. and Mrs. Peter Carlson who used to live on Butter Creek.

campus and to develop talent along this line. To qualify for pledgeship students must take an active part in dramatics. Further participation in the activity is necessary before initiation.

Mrs. Peter Carlson is now in Portland hospital receiving treatment of a stroke. Frank Carlson is married and lives in Astoria. Old timers will remember the Carlson family.

KIK PLEDGED TO DRAMATIC CLUB

Oregon State College—Charles Kik of Hermiston, sophomore in chemical engineering at Oregon State college, was one of the 27 students who have been pledged to Mask and Dagger Dramatic club.

Mask and Dagger aims to stimulate interest in dramatics on the

campus and to develop talent along this line. To qualify for pledgeship students must take an active part in dramatics. Further participation in the activity is necessary before initiation.

Miss Mary Daley has stopped her training at the St. Anthony's hospital in Pendleton and is soon to be the bride of Mr. Bill Doherty of Alpine.

A motor oil that sings!

KEEP IT COOL — KEEP IT CLEAN — KEEP IT SEALED — KEEP IT OILED —

Oh, we soak up loads of heat
And we carry dirt away —
Seal in power all around
And lu-bri-cate today!

LET THIS four-part oil protect your modern engine. It is made to do four distinct things: (1) Carry away engine heat by circulating over hot moving parts, (2) wash away grit and carbon from bearing surfaces, (3) seal in the power of high-compression piston strokes, (4) and, lastly, keep its smooth oiliness all its long life. That is true balance!

SOUVENIR OF 35 YEARS AGO

The "Portals of the Past" in San Francisco's Golden Gate Park are the last reminders of the Fire and Earthquake of April 18, 1906—just 35 years ago this Spring. Chevrolet dealers sent this 1941 Chevrolet Fleetline model to get photo of plaque (right) which explains that the portals once were in home of A. N. Towne on Nob Hill.

PORTAL OF RESIDENCE, CALIFORNIA AND TAYLOR STREETS, OF A. N. TOWNE, FOR MANY YEARS VICE PRESIDENT AND GENERAL MANAGER OF THE SOUTHERN PACIFIC RAILROAD COMPANY. THIS RELIC OF THE CONFLAGRATION OF APRIL 18, 1906, WAS OBTAINED THROUGH THE KINDNESS OF MRS. A. N. TOWNE.
