Men and Motors—The New Army on Wheels

Uncle Sam's motorized force—the new army on wheels—is symbolized by the "dawn patrol" of Chevrolet 4 x 4 army trucks shown across the bottom of the photo. The Chevrolet four-wheel-drive army truck, above, carries a complete telephone switchboard. Within a few minutes after the Fourth Division's motorized units completed a 235-mile trek from Fort Benning, Ga., on a practice maneuver, Major-General Lloyd R. Fredendall could communicate with every part of the vast encampment. The Fourth, moving in three columns, each 45 miles long, made the trip in 10 hours as compared with nearly 10 days before motorization.
