MANY YOUNG MEN TO REGISTER JULY 1

Word was received here this morning from the Umatilla County Selective Service board at Pendleton that all young men who have become 21 years of age since the first Selective Service registration last October 16, will be required to register between 7 a. m. and 9 p. m. Tuesday, July 1.

Registration will be taken at one place in the county only—at the office of the Umatilla County Selective Service Board, Room 1, Stangier Building, Pendleton. Young men living elsewhere in the county will be

required to come to Pendleton for the enrollment.

Proclaimed by President Roosevelt in the interest of National Defense, the same rules that applied for the registration last October 16 will apply to July 1 for those who have not previously registered.

Governor Sprague of Oregon, in proclaiming July 1 as Oregon registration day, said:

"Persons required to register are every male citizen and every male alien residing in the United States, if on or before July 1 and subsequent to October 16, 1940, he has attained his 21st birthday and has not heretofore registered under the Selective Training and Service Act of 1940. Each resident of the State of

Oregon subject to the Act shall register at the office of the local board having jurisdiction over the area in which he resides or is present at the time fixed for registration.

"I call upon all employers and public agencies to give those under their charge sufficient time in which to fulfill the obligation of registering."

Rough estimates were that 250 or more young men would be registered in Umatilla county.

BUILDING PERMITS NECESSARY ITEMS

According to City Recorder Chas. Taylor, it is necessary for anyone building any type of building within the city limits of Hermiston to obtain a building permit. There is no cost for the permits.

A total of \$21,852 in permits has been issued to date this month, according to Mr. Taylor.

HERMISTON BOYS ENJOY CAMP STAY

The following letter was received by the Herald this week from Bill Belt who is a member of the group attending the Beaver Boys State at Corvallis. The letter follows:

"Arrived safely, and am glad to say that things are going well here. Fine spot for a camp—fine leaders, and boys the same.

"Am hard at work in the office of the Boys Statesman, official daily of the Beaver Boys State Camp. I was fortunate to be picked editor from the 264 boys on the campus. Have a fine staff to work with and we are just now getting the first issue out.

"About the others—Dave Hamm is Assistant State Chief of Police, and Gale Felthouse was elected to the City Council of the City of Hood, Columbia County. There are three counties, and 12 cities, and each is named for an Oregon county or city.

"D. M. McDade of Portland, Director of the Journal Juniors, is camp director, assisted by Legionnaire counselors. Last night there was an official opening ceremony, welcome by the College President Emeritus, and other officials of the Legion, etc.

"There will be county elections tomorrow (Tuesday) and the state primaries are on Wednesday, with the General election on Thursday. There is a Boys State Broadcast on KOAC every night at 8:00, a half hour.

"All for now—hope that will give you something for the coming issue of the Herald."

WHEAT LAND NOW CULLED SAME AS LIVESTOCK HERDS

The practice of culling wheat land in eastern Oregon and returning some to grass or other uses has reached large proportions in the last few years under the necessity of reducing wheat acreage. This process may result in an improvement in operating economy on some farms, reports H. L. Thomas, research economist with the Soil Conservation service, who is cooperating with the Oregon experiment station and the USDA in studies of this subject.

Thomas' findings to date have just been published as station circular of information No. 247, by the experiment station. Figures gathered by him show that between 1934 and 1940 approximately 180,000 acres have been retired from wheat in Oregon and seeded to crested wheat grass. Growers who have been engaged in this process have reported, by means of a questionnaire, that this culling process has removed from cultivation shallow, low-yielding, and steep, erosive land for the most part.

The financial result of the change from all wheat and fallow to wheat grass, and fallow is analyzed in the circular by citing a typical farm of approximately 2600 acres on which 384 acres have been diverted to crested wheat grass. The study reveals that, at present prices and on the basis of using the crested wheat grass for grazing rather than seed, the net return from the farm under the two programs is less by only \$101 under the grass program than straight wheat.

"The question of which land and how much to take out of wheat production must be decided on the basis of individual needs and circumstances on each farm," says Thomas. "The urgency of soil conservation on the one hand, and farm income on the other must be considered for each individual field and parcel of land. Some farmers would regard the possible sacrifice of \$101 per year as a low rate of insurance against further damage from soil erosion, or a nominal price to pay for many intangible benefits which accrue through the years from soil conservation."

JUNE IS RECORD MONTH FOR RAIN

The rains of Tuesday night brought the total for the month of June to 1.89 in. which stands as a long-time record so far as records in the office of Chas. Taylor, Hermiston weather man, go. The feed canal for the Cold Springs reservoir is still running which in itself is quite an oddity for this time of year.

The report for the past week follows:

Date	Max.	Min.
June 18	74	55
June 19	74	54
June 20	76	47
June 21	87	48
June 22	98	57
June 23	87	53
June 24	84	59

FARM BUREAU MILL REJECTS UNION BID

At a special meeting of the membership of the Farm Bureau Cooperative called by the directors, and held in the Methodist church Friday afternoon, a majority vote of the members present rejected the proposed contract with the A.F. & L. Sixty-five eligible members were present, with a vote of 48 against accepting the contract and 7 for the contract.

W. A. Baker, board member from Boardman, explained the position of the union group, in the absence of any union representative. Discussion of the contract followed, with questions being asked by the various members.

Henry J. Ott, president of the board, was chairman of the meeting with Ralph G. Saylor, secretary. Tellers were George Strohm, C. L. Upham and W. A. Mikesell.

DUMP CARETAKER ASKS COOPERATION

The City of Hermiston has found it necessary to employ a caretaker at the dump grounds about 1 1/2 miles northwest of the city in order to keep the grounds in proper condition. W. J. Adams has been placed in charge with full authority to enforce proper disposal of all matter dumped.

It will be appreciated if everyone will cooperate with him.

EMPLOYMENT HALL IS BUSY PLACE

One of the busiest places in Hermiston these days is the office of the Oregon State Employment bureau. According to Lynne E. Black, manager, his office is placing from 75

to 100 men each day and are registering a greater number every day.

Mr. Black stated Wednesday that the contractor has asked for quite an increase of field help in all departments. Approximately 2000 men and women are employed at the site at the present time with probably 1000 to 1500 more expected

FOR DEFENSE

A VITAL PART of making America strong is to make Americans stronger... with the food they need. Vitally aware of this are the thousands of trained and experienced people who are engaged in the nation's great food industry—the farmers, who produce the food; the manufacturers, who process it; and the grocers, who distribute it—proudly working in the best way they know to supply the energy necessary to do the big job.
