THE LAW

No one need have any fear of the clutches of the law, or law enforcement officers if they keep within the law. After all the observance of ordinary laws affecting our daily lives is a small matter if one gives a little thought. Common sense and decency is the chief basis of our safe association together, and laws are only regulatory measures to guide and protect our welfare.

On the other hand, laws are not made to be played with, or carelessly observed without penalty. And penalties are little more than a spanking or shingle to the older grown.

In small communities few officers are needed. In more concentrated or crowded areas more officers are required and a more strict observance of laws is insisted upon. In every case it is the part of good citizenship to observe the laws and give whatever assistance possible to the enforcement officials.

Now that the contract has been made public for extensions of the Ordnance Depot, more homes and more camping spaces will be needed. It means, too, that the time of doing the work will be extended and investments made more secure. The Federal Housing Administration should be convinced that a defense area means not only a patriotic duty, but in the case of Hermiston, a sound investment.

Order Your Coal Now!

"Anticipating very grave danger of a shortage of coal next winter, the GOVERNMENT urged householders throughout the country tonight to 'buy coal now.' Both COAL and oil shortages are threatened, not by lack of supplies, BUT BY THE DEMANDS THE DEFENSE PROGRAM IS MAKING ON TRANSPORTATION FACILITIES. The coal shortage may be avoided, officials said, if the campaign for SUMMER BUYING SUCCEEDS."

"Every coal consumer who has storage space and the money can do his bit for the nation by ordering and taking delivery during the summer months."

Paul Sifton, Acting Director of the Consumers Counsel, a Government Agency established to protect bituminous coal users, said, 'Coal must be moved this summer. If consumers do not buy now, they may be in trouble later'."
