Mr. and Mrs. John Strong have arrived to take the third trick operat-

You can have this
ECONOMY
ON YOUR FARM

The Superior Performance of John Deere Tractors at the Economy Matches at Cherokee, Iowa, is Typical of the Every-Day Economy of John Deere Two-Cylinder Tractors on the Farm.

THE rock-bottom fuel economy of John Deere Tractors, demonstrated again and again in various tests throughout the country... proved by the experience of thousands of farmers... is again verified by the results of the tractor economy matches held at Cherokee, Iowa, early in September.

John Deere Tractors, burning the low-cost fuels, romped home with first, second, third, fourth, and fifth places in the rubber-tired events, and with first and second places in the steel-wheeled contests.

Here are the results:

RUBBER-TIRED TRACTOR CLASS

Place	Make of Tractor	Operator	Fuel Cost per Gallon	Fuel Cost per Acre
1st	John Deere "H"	John Patterson	8.2¢	9.36¢
2nd	John Deere "H"	Lyle Mason	7.5¢	9.55¢
3rd	John Deere "A"	Laurence Kohns	8.2¢	10.7¢
4th	John Deere "H"	Laurence Gummow	8.2¢	10.8¢
5th	John Deere "H"	Gernis Boothby	8.2¢	12.1¢

The fuel cost of the next nearest entry was 20.7 cents per acre—71 per cent higher. Some entries ran more than twice as high as the John Deere.

STEEL-WHEELED TRACTOR CLASS

1st	John Deere "A"	Harvey Fick	8¢	12¢
2nd	John Deere "B"	Marvin Mann	8¢	13¢

Fuel economy like this is a conclusive demonstration of the real money to be saved by using low-cost fuels in John Deere two-cylinder Tractors. And the reason for this economy is exclusive John Deere two-cylinder engine design... after seventeen

years still the most practical development in farm tractors.

You want this same economy on your own farm. Enjoy it this year and for many years to come with a John Deere Two-Cylinder Tractor. See us today.
