BOARDMAN NEWS

By Elaine Fisher

Mr. and Mrs. Frank Barlow celebrated the 50th anniversary of their wedding Saturday. A family dinner was held in the grange dining room with all their children, grandchildren and great-grandchildren present; also all sons- and daughters-in-law, except Mr. Cox of Seattle. Those present were: Mr. and Mrs. Charles Barlow and family of Heppner; Mrs. Goldie Cox and son and daughter and grandchild of Seattle; Mr. and Mrs. Z. Gillespie and family; Mr. and Mrs. Coats and daughter and son-in-law, Mr. and Mrs. Glen Mallory, late of Washington, D. C., Mr. and Mrs. Ed Barlow and Canna, Mrs. Guy Barlow and Chloa, all of Boardman; Mr.

and Mrs. Ray Barlow and family Eugene. In all there were 38 present.

In the evening the community held a reception in honor of the couple. There was a very effective program of old-fashioned songs illustrated by shadow pictures which portrayed the life of the honored couple from early courtship to the evening of life. Robert Berger presented on behalf of the community a beautiful chair to Mr. Barlow and an electric razor to Mrs. Barlow. The company then went to the cafeteria where delicious refreshments were served. Interesting talks were given by Mr. Barlow, Rev. F. K. Walpole and others.

Stanley Partlow, who is home on furlough from Camp Lewis accidentally received a shot in the shoulder. He was taken to the doctor at Hermiston and is now home and getting along satisfactorily.

Mr. and Mrs. Enzler spent the week-end in Portland.

Rally Day is to be observed at the Community church. There is to be a program followed by a pot-luck dinner. All are invited.

Mr. and Mrs. Glen Mallory arrived from Washington, D. C. Thursday evening. He has been employed there as a government typist. He has now been transferred to Tacoma. She is the daughter of Mr. and Mrs. Claud Coats.

IRRIGON NEWS ITEMS

By Mrs. W. C. Isom

Mr. and Mrs. Milo Hinkley are the parents of a 10-lb. baby girl born at their home Saturday, September 27. Mr. and Mrs. Don Isom and children of aBtes, Oregon, visited his parents, Mr. and Mrs. W. C. Isom Saturday and Sunday.

Edward Browning passed away at his home here Friday, September 6, after a brief illness. He was 81 years old. Funeral services were held in the Pentecostal church Sunday at 2:30 o'clock. Interment was in the Irrigon cemetery. Among the out-of-town relatives present were his two sons, Emmett and Wilbur Browning from Washington and Mr. and Mrs. Evans from Heppner.

Mrs. Hoaglan is visiting her sister at Mt. Vernon, Oregon.

Mrs. Mary Walker of Washington is visiting her daughter and family, Mr. and Mrs. Jack Browning.

Mrs. Belle Wheeler who has been visiting her parents, Mr. and Mrs. Frank Frederickson, left for her home at Grabel, Wyoming, Saturday.

Mr. and Mrs. Chas. Bender of Umatilla were Sunday evening visitors of Mr. and Mrs. Isom.

Mrs. Irene Dexter entertained at a shower honoring Mrs. Calvin Allen and Mrs. Adrian Allen Friday

Novel Products Being Developed in Building

Structural clay tile especially suited to defense construction, an upward acting garage door set, a modern wiring system for low cost dwellings and farm outbuildings, and newly designed, bathtubs of ceramic material are among the building products described in the bulletin of the Producers' Council, edited by the Department of Technical Services of the American Institute of Architects.

When structural clay tile is used, construction time is not required for plastering, painting, or other wall finishes, because the tile functions as both structural wall material and surface finish of the building, it is pointed out. The exterior faces are textured while the interior faces are smooth. The tile has strength, low maintenance cost, and good resistance to weathering and fire. It has been used in the National Guard armory, Hot Springs, Ark.

The new bathtub, designed with flat bottom and a panel front, has a hard glasslike surface that is easy to clean. A comfortable seat extends across the front of the bath, a splash rim keeps water from surging over, and a hand grip provides greater safety in getting in and out of the tub. Although the bottom is flat to reduce danger of slipping, a pitch toward the outlet assures overall rapid draining.

Modern garage hardware for the house built on a limited budget slides the garage door up out of the way. It can be applied to old doors, converting them into a one-piece upward acting door. The doors can be fitted snugly all around, completely sealing the opening when closed. The installation is called simple and speedy. The hardware includes all necessary parts, with locking device designed for use with a padlock.

America's 'Garden Spot' Known for Fertile Land

Called the "Garden Spot of America" because it is located in one of the richest farm regions in the country, Lancaster, Pa., was first settled by English, Palatinate Germans, Scotch-Irish and French-Huguenots. It is the center of a large population of members of the "Plain People" sects.

According to a descriptive pamphlet published by the Lancaster Chamber of Commerce, "Here Penn's Commissioners signed a treaty with the Indians in the old Moravian Church on West Orange Street. Continental Congress met at Lancaster when the English captured Philadelphia. At an old stone mill on the edge of the city the famous 'long rifles' were made for the Continental Army. Cannons were cast in the Lancaster County iron foundries of 'Baron' Stiegel, also famous for his glass."

Lancaster also boasts of other claims to fame such as Wheatland, the home of James Buchanan, fifteenth President of the United States and only Pennsylvanian to hold that office; birthplace of Robert Fulton; Donegal Church and Historic Witness Tree and other spots of historic interest.

Poultry Bones Kill Dog

Poultry bones are, sooner or later, fatal to the dog who is allowed to eat them. When chewed to a pulp, their many sharp points are liable to pierce the throat or the walls of the stomach or the intestines, as thoroughly as would a handful of pins. For a while, your dog may be able to avoid this fate, after a feast of such bones (often he disgorges them and thus is saved) but in the course of time they will get him. That is known to all dog men.

The question was put to three noted scientists and to a professor at a veterinary college.

All of them said that any kind of cooking has the effect of "calcining" poultry bones making them brittle and giving them needle points when they are crushed by a dog's teeth. Raw fresh poultry bones are softer. They can be chewed and digested usually without harm.

Rice Stem-rot

Rotations of four to six years apparently will not eliminate the rice stem-rot disease from the soil, is the opinion of E. C. Tullis of the United States department of agriculture and E. M. Cralley of the Arkansas Agricultural Experiment station here.

The scientists found that the stem-rot disease of rice can remain viable in uncultivated rice soil for as long as six years, when infective material was stored under normal outside conditions. Even after two years infective material was obtained from stubble in the field. When stubble was stored in the laboratory under less favorable conditions, infective material was recovered after 2 1/2 years.

Easy Scale to Kill

Fern has the apricot or soft-brown scale, an easy one to kill. You should be able to get at any seed store of size a spray especially made for such scales. The old fronds heavily infested could be removed and the scales pushed off with a toothpick where they are not so many. Then gently wash the fronds with soapsuds made from a strong laundry soap. Watch for scales and get rid of them as they appear, for they cannot increase except through egg-laying by the adults.

FARMERS TO AID DEFENSE PROGRAM

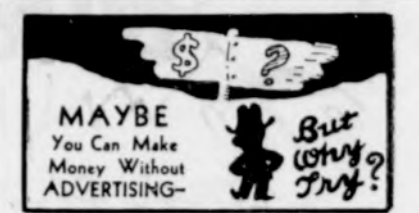

Local direction of the U. S. Department of Agriculture's far-reaching program to expand production of needed food products will be carried out by the Umatilla County U.S.D.A. Defense board, made up of representatives of agencies of the Department of Agriculture operating in this county.

Announcement of the 1942 farm production campaign by Secretary of Agriculture Claude R. Wickard last week calls for participation of every farmer in Umatilla county in adjusting farm production to U. S. needs for national defense and the needs of nations abroad resisting aggression, local defense board officials said this week.

The board in Umatilla county, similar to boards set up in every agricultural county in the nation at the Secretary's request in July, consists of

A. R. Coppock, Chairman, Chairman Umatilla County Agricultural Conservation Committee, W. A. Holt, Secretary Umatilla County Agricultural Conservation Committee, M. D. Rodman, Soil Conservation Service, James K. Hill, Production Credit Association, Carl Ewing, Forest Service, H. J. Bean, Rural Electrification Administration and Bruce Stewart, Farm Security Administration.

"Production has been set on all essential farm commodities for the 1942 food production program, based on a thorough canvass of the needs of improved nutrition in the country and the needs of the nations resisting aggression," A. R. Coppock, Chairman of the defense board said.

NOTICE OF 1942 BUDGET MEETING

In accordance with the provisions of the "Local Budget Law" (Sections 110-1201 to 110-1215 O. C. L. A. as amended), notice is hereby given that the Budget Committee of the City of Hermiston, Oregon, has prepared in compliance with the "Local Budget Law", Budget estimates for the ensuing fiscal period January 1, 1942, to June 30, 1942. All persons are hereby notified that on Friday the 17th day of October, 1941, at 8 P. M. in the council room in the library building, Hermiston, Oregon, the following Budget Estimates for the ensuing fiscal period ending June 30, 1942, for the City of Hermiston, Oregon, and any person subject to the proposed tax levy or tax levies will be heard in favor of or against said proposed tax levy or tax levies or any part thereof.
