NEW HOURS LISTED EMPLOYMENT OFFICE

James M. Clinton, local manager of the U. S. employment service at Hermiston, announces that in accordance with federal regulations the new office hours for handling registration of persons for employment will be 8:30 a. m. to 4:30 p. m. week days and 8:30 a. m. to 12:30 p. m. Saturdays.

The time for filing unemployment compensation claims will remain on Fridays between the hours of 9 a. m. and 4 p. m. Contrary to past practices, the office will remain open during the noon hour, Clinton stated.

ARMY LIFE SWELL SAYS 'STU' RANKIN

"This army life is really quite the thing," writes Pvt. Stuart Rankin from Hill Field, Ogden, Utah. "Stu", as he is better known by his friends here, has recently been transferred from Camp Grant, Ill., to his Ogden post, much to his liking. "I guess they are going to make a nurse out of me," he writes, stating further that he is employed in a hospital.

As there are two feet of snow on the ground when he writes the letter, "Stu" wishes that he could have his bobsled and enjoy some of the good times he had in Hermiston. "Say hello to all my friends."

Missionary to Speak

MRS. EDNA GISH

MISSIONARY TO BE SPEAKER SUNDAY

Mrs. Edna Gish, a missionary from China, will speak during the regular worship hour at the Central Church of Christ next Sunday evening, January 18, at eight o'clock.

Mrs. Gish is in the United States, an evacuee from war-torn China at the advice of our government. She had been stationed in Nanking, working among war harassed Chinese of the South Gate section where Churches of Christ conduct missionary work.

Mrs. Gish went to China in 1920. Her husband, of less than a year, was drowned approximately one year after her arrival in China. Mrs. Gish remained alone in China to carry out the work they had planned. In 1927 when hostile armies marched in and all foreigners were forced to flee she went to the Phillipine Islands where she served for one year. Back in China, ten years later, Mrs. Gish again experienced war. She was serving in Nanking when the severe bombing began. She was forced to flee from one city to another until evacuation orders came in December 1940. Her story will be very interesting especially in that China and United States have many things in common. The public is invited and urged to hear her.

BURLAP SHORTAGE ANTICIPATED HERE

With the war in the Pacific and resultant shipping difficulties cutting off the principal U. S. source of burlap, it has become very important that farmers conserve their present supplies of burlap to guard against an almost certain shortage, A. R. Coppock, chairman of the county USDA defense board, has been informed.

Nearly all of the United States' supply of burlap comes from India, the chairman explained. Normally, agriculture used 75 per cent of burlap imports, mostly for bags to package commodities which farmers buy and sell. Now, under OPM orders two-thirds of the burlap available will be used for military purposes, such as sand bags and camouflage materials.

PACIFIC QUINTET SCHEDULED FEB. 5

A combined team of Hermiston and Stanfield basketball players will assume a giant-killer role here Thursday, February 5, when they tackle the strong Pacific university five. Although Pacific university boasts only one returning letterman, Coach Pete Miller has a reputation of producing winning teams, winning 18 out of 28 contests last year and accounting for most of the major upsets in the conference.

Several nights of stiff practice are in store for the local teams in preparation for the contest. It is felt that by combining Stanfield and Hermiston players, a good team can be placed on the floor February 5.

U. S. O. BUILDING IS DEDICATED

(Continued from page 1)

senting the soldiers, thanked the people of Hermiston for their cordiality.

Thomas Laman, chief of the section of public activities, W. P. A., told of activities of his association and the part it was taking in present projects about the country.

Don T. Orput, representing the Federal Security Agency, made a formal presentation of the building to Miss Johnson, who in turn introduced her assistant, Mrs. Jean Wilson. Mr. Orput proved an interesting speaker, stressing the value of U. S. O. centers and telling of the part they are playing in caring for the recreational needs of defense workers and soldier boys.

Walter W. R. May, director of public relations of the Portland General Electric company but speaking as chairman of the state committee on recreation, was the feature speaker of the evening. Mr. May stressed the word "morale" throughout his discussion, stating that it played a great part in any undertaking. All citizens can aid in keeping up the morale of our armed forces by being good neighbors and cooperating when called upon.

An open house and dance followed the program. Due to the fact that all the furniture has not yet arrived, another open house will be held in the future.

County Judge Carl Chambers was also present for the evening. Art Thrasher, manager of the P. P. &. L. Co. in Hermiston, was master of ceremonies.

BOOK DRIVE IS STARTED HERE

Starting Monday, January 19, the victory book drive gets underway in Oregon, when every citizen is invited and urged to give at least one good book for the boys in the service. It's a nation-wide drive sponsored by the American library association, American Red Cross and United Service organizations.

"Keep 'em reading, too!" is the slogan adopted by Oregon for this campaign, which will continue for several weeks. Librarians, heads of service clubs and women's clubs, as well as other civic leaders, have been asked to lend their support to this all-out effort to provide desirable books for the nation's soldiers, sailors, marines and fliers.

Don't go to the attic for the books. Our boys don't want musty, cast-off volumes. Give the books that you like—give books that are worthwhile, books that are desirable. Up-to-date technical books will be appreciated especially. Service men like biography, travel, adventure, humor. Books dealing with current events, mathematics, history and geography are needed for study.

Troops will have first choice of all books collected here. The surplus will go to the forces on land and sea elsewhere. All books contributed should be left at the local library where they will be sorted and repaired if necessary, then turned over to the Hermiston U. S. O. Put your name and address in the books you give—the boys will be interested to know "who gave what." Library hours are 12:30 to 5:00 daily except Sunday; also Monday and Thursday evenings from 7:00 to 9:00. Books may be left in the box if the library is not open.

TIRE RATIONING TO BEGIN SOON

(Continued from page 1)

tioning rules are those of physicians, surgeons, visiting nurses or veterinarians. Cars or trucks used for ambulances, fire, police, public health, garbage disposal or in mail service are included. Buses carrying 10 or more passengers when used for schools, transporting to or from industrial plants where other means of travel are not available and regular buses are included. Trucks used exclusively for delivery of ice or fuel, road building, public utility repair, hauling material and equipment for construction of defense housing, trucks used for plumbing, roofing and heating work or electrical repair, common carrier trucks and those used to haul waste and scrap materials or raw materials, manufactured goods and finished products and foods will be permitted to purchase tires.

The classification includes trucks engaged in milk deliveries but does not include trucks operated by grocery stores for delivery to customers. Farm tractors will be eligible for new tires, but not farm trucks and cars.

The rules do not permit the issuance of certificates to eligible persons if present equipment can be recapped. It is also necessary that the owner trade in replaced tires in making the deal or dispose of the old tires as ordered. Certain groups of tires are listed as "absolete sizes" and apparently there will be no restriction on dealers disposing of present stocks of these.

At the present time the one thing which is very plain is that the vast majority of car owners will have no chance to secure tire replacements for a long time to come and that the thing for them to do is reduce use of their cars as much as possible and operate their cars at speeds and in a manner that will cause the least possible tire wear.

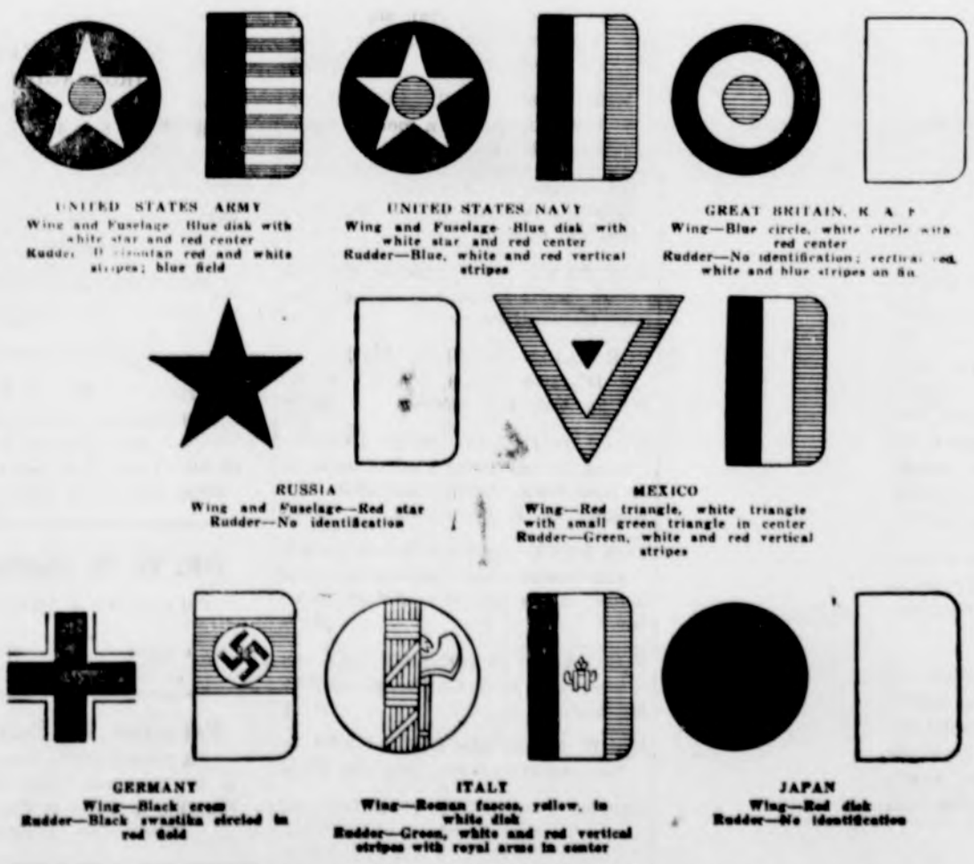
How to Distinguish Nationality of Aircraft



Civilian air raid spotters will have no difficulty distinguishing Axis planes from those of the United Nations if they memorize the markings illustrated above. American and British planes have designs of red, white and blue, and Russia has a red star. Watchers on the southern border occasionally may see the red triangle of Mexico. Axis raiders are easily spotted through the familiar black cross and swastika of Germany, the round red rising sun emblem of Japan and the Roman fasces insignia borne by Italian planes.
