HERMISTON BAPTIST CHURCH
Grayden D. Lorce, Pastor

This Sunday we shall conclude our series of expositions of I John with his view of "Practical and Consistent Christianity". John's theology is practical. It can be applied to our every day life. His love is not merely a love in word, but "in deed and in truth". Theoretical Christianity has little place in this modern world. The world needs something that can be lived.

All services at the usual hours. You are welcome.

Don't Let Your House Run Down at the Heels

Little things, like dirty fingernails or run down heels, can ruin your personal appearance, yet they take practically no effort or money to repair. Your home requires the same care . . . if you take pride in its appearance.

There are numerous small items around the house that may need repairs or replacement . . . now or very shortly. Minor things, such as cracked or broken railings, worn and uneven boards, etc., that seem unimportant, should be repaired without delay, for appearance, safety, and economy.

A home worn in a few places is apt to look shoddy, cause painful or serious injuries from falls, and attract a large repair bill when the minor defects become major items for repair. The cost of fixing minor defects is negligible, if it is done in time.

Call and let us give you more information or an estimate on small repair jobs. Or, better still, let us come and look them over.

JUST BETWEEN US CALVES

We'll Do More For You on SECURITY CALF FOOD

It's a low-protein feed that your baby calves need the first 6 weeks. No grain rations, meals or pellet feeds to disturb delicate stomachs. New Improved Security Calf Food — a fluid substitute for whole milk, is the answer. This high-energy food starts baby calves off to good health on the first feeding and costs just one-fifth as much as whole milk. You can make more money by selling your whole milk instead of feeding it. Uncle Sam wants more milk.

SAVE 1/2 ON CALF MEAL
After 6 weeks when calves need a change in feed, mix Security Calf Food into your meal and SAVE 50% of the cost of commercial meals. Calves prefer freshly mixed meal and thrive better on it. See your nearest dealer for a pail!
