management. In the past fifteen years alone, the cost of lighting our store has been reduced nearly one-third."

"Ever since Pacific Power & Light Company came to The Dalles 35 years ago, we have been getting more electricity for less money each year, and, in addition to that, the extra services that help us use it to the best advantage. For instance, when we installed complete new lighting fixtures to improve our store, a PP&L lighting expert helped us figure our requirements and helped us select store lights that are giving us far more light for less money. But more important still is PP&L's 35-year record of continuously reducing the price of electricity through good business

The Edward C. Pease Co., Inc., department store is one of the oldest mercantile establishments east of the Cascades. Mr. Pease has been a resident of The Dalles and in the mercantile business since 1884. One of the first users of electricity in The Dalles, Mr. Pease tells of the early days when his store was lighted with coal oil lamps, and when The Dalles was a shipping point and trading center for all the central Oregon country as far south as Lakeview; when ten-horse teams hauled wool to The Dalles for shipment by rail or boat, and returned to the inland country with wagonloads of groceries and supplies, often taking a month for the round trip. Mr. Pease has a well-electrified home in The Dalles now, but says his light bill is one of the smallest items of household expense.
