"My dear Dr. Townsend: Let me commend you upon the fight you have made and are making against any effort to put an unjust burden of the war expense upon the little man. The average man and woman always have been willing to do even more than their share by either personal or financial sacrifice to defend their country and to aid it in its great efforts, but those who have the interest of the great masses of the people closest to their hearts will not suffer them to be imposed upon. Hence, any kind of a tax such as a sales tax which does make the average man and the average woman share more than his or her fair share must have our adamant opposition. Of course, we will always keep an open mind to judge on its merit whatever may be proposed.

"I know you will be pleased to know that I hear many more people speak favorably about the principle of the gross income tax, such as the Townsend plan suggests.

"I do want to take this occasion to tell you that I am still hoping that we can show a better example of democracy in this country by making better provision for our aged and handicapped people. You have been a valiant warrior. I know you will continue to be. With best personal wishes, I remain, very sincerely yours, Claude Pepper."

The members of this club are always glad to let anyone read the Townsend Flashes even though they are not members, and every one is welcome to come to our meetings. Next meeting will be April 14 at 8 p. m. at the Townsend pavilion.
