PENDLETON GETS ALL CANDIDATES

With election returns all in, we note that Pendleton has all the candidates for all offices in the county. The East end, the West end, and the South end and all roundabout the Roundup city, are represented only in such good graces that may be handed out by the metropolis of this big county. We do not believe that the majority of the people of Pendleton approve such condition. It is bad politics, and poor business for such results to continue. While it is too late this biennial to change, two years from now the wrath of the forgotten communities may lead to revolt. Fair play and good sportsmanship in these nominations should find spokesman in Pendleton first, and the marked deck should be thrown away, and the cards reshuffled during the next two years while the outlying voters are still in a fairly good mood.

While a number of good houses are being built, and with further assurances that many more will be built in Hermiston, and with some small houses under construction and several of the shack type still quite in vogue owing to emergency conditions, it is time that the city made some plans. We have outgrown the ways of the years gone by, and we are also outgrowing last year's wild and indefinite ways of constructing this and that anywhere. We know that we have reached another stage in our growth, and we should not fail in our duty to the welfare of the city and to the maintenance of values of property holders. It is no longer let go as you please on a hit and miss program. Building restrictions should be inaugurated and the town should be zoned. Street improvements should be made, establishment of new streets should be arranged, and additional areas should be made according to certain plans or by ordinances. Much of this may cost something, but the taxable wealth is now being increased. More will be added through a better system of municipal control of construction and addition of other improvements. With a sewer system going in, and the water system being enlarged along with new residence construction and the demand for more houses every day, it is the opportune time to adopt a planning program, and a few more ordinances directing the developments.

TOWNSEND CLUB NEWS

By Mrs. Joe Udey

Notice to all members—Here is a message from Dr. Townsend:

Dear Friends of the Townsend Clubs: I hope to see our organization become known as the greatest supporter of the government, in the matter of raising revenue for the prosecution of the war, of any group or combination of groups in the United States.

Now that we have the authorization of the treasury department officials at Chicago to engage in the selling of savings stamps through the Townsend Foundation, let us plan intelligently and uniformly, so that we can not only do a remarkable service for our country, but bring to ourselves renown and prestige as an organization.

My suggestion is this—that we endeavor to raise, in every club, a working capital of as many dollars as possible. That we invest this capital in defense savings stamps of the 25 cent denomination. That we appoint the most capable of our members to act as salesmen-saleswomen, and instruct them how to present the stamp for sale to the public. They will carry regulation stamp books with them so that the purchaser may himself paste the stamp within the book if he so desires. When the salesman has filled all the spaces with the stamps that are in the book, he then will turn in the filled book to the club secretary. He will receive a receipt for the book and for the money turned in. The club secretary will forward all filled books to the Townsend Foundation at Chicago, 450 E. Ohio St., and the treasurer of the Foundation will convert the stamps into bonds of the U. S. treasury.

Here is an opportunity for us to build name, fame and fortune for our great organization. Do not let it escape us!

Dr. Frances E. Townsend. At our next meeting, June 9, the above message will be studied and acted on so we do urge all members and their friends to be present.
