Along the Diagonal: The trek to town for canning sugar certificates... and speaking of rationing, a neighbor called this morning with the timely suggestion that we remind the residents of the district of the national rubber salvage effort now underway, and to urge that we do our part to meet our country's vital need by searching out those numerous articles of rubber which all too often go into the discard—such as those old shoes, and those galoshes the children wore out at school last winter. Our neighbor suggested that the youngsters might do the rubber salvaging, call in a junk dealer, and fill up that album of defense stamps.
