Bring In Your Rubber!

Many people are failing to bring in their rubber in response to the government's call. In most cases this is sheer neglect, but it is neglect of a patriotic duty, and this carelessness is also contributing to the support of our enemies.

This lack of cooperation is also contributing to the shortage of our own supply. Every car owner needs tires, and he may have in his own back yard enough old rubber to recap his own needs.

Every intelligent citizen knows that Japan has cut off our rubber supply in the South Seas. He also knows that the army needs rubber, that he wants rubber, and that industry and defense projects need rubber to carry on production of all kinds in support of the boys at the front throughout the world.

A cent a pound pays well for the effort, but this is a small matter

compared to all the other appeals. The man whose sense of patriotism cannot be touched by the great emergency should be denied an extra tire. The country knows well that there is a tremendous supply of old rubber if it can be collected into depots where it can be shipped to factories for reclamation. Unless there is a greater patriotic response, thousands of cars will be out of tires, and gas will be rationed and farmers and industry will be afoot. Synthetic rubber is yet in its infancy and cannot reach the goal in time for the nation's needs.

Do not think what small supply you may have at home or in the garage is not worth while. Multiply it by 130,000,000 of similar amounts and then add the patriotic sentiment of the effort, and we will have a rear guard built up that will bring this war to an earlier ending and save thousands of the lives of our boys.

Are you entitled to wear a target lapel button?

You can ONLY if you are investing at least ten percent of your income in War Bonds to do your part on the home front toward winning the War.

The target lapel button is a badge of patriotism, a badge of honor. You should feel proud to display it. The buttons are obtainable at your plant management, at the office of your local War Bond chairman, or at your Payroll Savings Window where you authorize your ten percent payroll deductions.
