F. S. A. OFFICE MOVED AWAY

The moving of the Umatilla County Farm Security Administration office from the Cooperative Creamery building in Hermiston to the Hartman Abstract building in Pendleton on July 1 has been announced by Arnold K. Harrang, county supervisor.

The increased loaning activity in the Milton-Freewater district during the past year has been largely responsible for the move and it is anticipated that considerable economy in both time and travel expense will be effected by the change in location, Harrang stated.

GARDEN CLUB CHATS

The most important work at this season is careful cultivation. It should not be deep, but should keep the surface soil loose. The objectives are (1) conservation of soil moisture, (2) aeration of soil, (3) modification of soil temperature.

It is now warm enough to start seed of perennials in an outdoor seed bed. Perennials from seed sown earlier in the season are ready for transplanting in their permanent beds.

When transplanting choose late evening hours or better yet a cloudy day. Keep plants shaded from the hot sun during the next few days. Be sure the soil is damp around the plants you wish to remove to another place. Take a good sized ball of earth around each plant so the roots are not disturbed or broken.

Iris may be divided and peonies may be transplanted now.

Faded blossoms removed promptly, from many perennials, will give a second crop of flowers.

Remove some of the leaves from the grape-vines to let the sun in.

Feed roses frequently with a very weak liquid manure. Prune hardy climbing roses after they have finished blooming. Ramblers always produce the best flowers on wood which is only one year old.

Climbing hybrid tea roses grow flowers from wood of any age, therefore it is only necessary to prune out diseased and much of the weakest wood. Occasionally cut large flowering climbers back severely as every fourth or fifth year. The grower must learn these points by experience and observation.

Remember our meeting today at 2:30 in the U. S. O. building. We have an interesting program and we wish to see new and old members present.

MANY REGISTER IN FIFTH DRAFT

A total of 180 youths from 19 to 21 registered here Tuesday, according to J. D. Todd, who was in charge of the work. Only 93 of the 180 listed Umatilla county as their home address, the balance coming from outside. Of this group the 20-year-olds will become subject to call for military service. Order numbers this time will be given according to dates of birth.

A total of 968 registered in Umatilla county. Other figures listed were: Pendleton 254; Mission 9; Pilot Rock 39; Milton 240; Athena 206 and Stanfield 40.

INLAND CO-OP TO TAKE SCRAP IRON

Guy Shaw of the Inland Cooperative states that his firm will receive scrap iron and steel for another week. It was announced last week that this service would be discontinued. However, upon loading operations it was discovered that there was too much material on hand for one car but not sufficient to make up two.

Anyone having scrap iron or steel on hand is urgently requested to get in touch with Mr. Shaw in order that shipping operations can be completed.
