

TANKS DON'T FIGHT IN FACTORIES!

These formidable fighting machines can not take part in offensive action until they reach the theatre of war. No matter to what extent production is stepped up, transportation still remains a vital factor. That's where Union Pacific is doing a job of which we are mighty proud.

Over the Strategic Middle Route, connecting the East with the West, gigantic freight locomotives are hauling tanks, guns, plane parts and other war materials. Trainloads of troops roll over the steel rails. A great army—in workmen's uniform—are "keeping 'em rolling." That's their job—and they're doing it!

For information concerning passenger and freight transportation, consult local representative.

SECURITY CALF FOOD

We'll Do More For You on
SECURITY CALF FOOD
It's a low-protein feed that your baby calves need the first 6 weeks. No grain rations, meals or pellet feeds to disturb delicate stomachs. Now Improved Security Calf Food — a fluid substitute for whole milk, is the answer. This high-energy food starts baby calves off to good health on the first feeding and costs just one-fifth as much as whole milk. You can make more money by selling your whole milk instead of feeding it. Uncle Sam wants more milk.

SAVE 1/2 ON CALF MEAL
After 6 weeks when calves need a change in feed, mix Security Calf Food into your meal and SAVE 50% of the cost of commercial meals. Calves prefer freshly mixed meal and thrive better on it. See your nearest dealer for a pail.

SHE IS A THOUGHTFUL PARTY LINE "NEIGHBOR"

She answers her telephone bell promptly... places her own calls accurately, so that they do not have to be done over... teaches her children, too, the little telephone kindnesses... and when her telephone is not in use, sees that it is hung up.

Those with whom she shares her party line are grateful to her. She is a thoughtful "neighbor."
