AUTO STAMPS ARE NEEDED

According to information received from J. W. Maloney, collector of internal revenue, Portland, all persons who have their automobiles, trucks or motorcycles in use on the public highway in July are required to buy the Federal Motor Vehicle Use Tax Stamp, costing \$5.00 for the year beginning July 1st.

He stated that these stamps would be on sale at the post offices throughout the state during July, but called the attention of all motorists to the fact that the July tax stamp would be withdrawn from sale by the post offices after the close of the month, and could be purchased only at the Collector's office in Portland.

Mr. Maloney stated that preliminary reports of sales of these auto tax stamps was encouraging. However, it is apparent that many motor vehicle owners had not purchased their stamps. The deputies of his office are "tagging" all automobiles and trucks found without the stamp properly posted in the upper left hand corner of the windshield, as required by law, and all persons who have not already secured their \$5.00 stamp for July should get it at once from their local post office. The names of all delinquents are being rechecked, and if the tax stamp has not been secured, the tax will be assessed and collected from the car owner through the usual Internal Revenue facilities.

Collector Maloney stated that advice from the Bureau of Internal Revenue at Washington is to the effect that all deliberate violations of the law that are discovered, where the owner of the motor vehicle has failed to purchase the tax stamp, or to post it as required by law in his car, will be prosecuted vigorously, and the penalties provided by law are to be imposed in case of conviction.
