## Welcome Home!

HOME, to the American people, is a symbol of peace and freedom. Whenever you travel to near or distant parts, there is a feeling of security in knowing that you can return to a home with its comforts and conveniences, its peaceful family life.

How would you like to be welcomed home by the crashing of bombs, by pillars of smoke arising from the ruin of possessions for which you had worked and saved?

That is no fantastic dream. Anything can happen. That is why thousands of Union Pacific employees, resolved to retain their American freedom, are tirelessly working to help Uncle Sam. Troop trains—huge shipments of raw materials and armament—roll over "the Strategic Middle Route" in a never-ending procession. It's up to all of us to "keep 'em rolling." We must be victors—not victims.

For information concerning passenger and freight transportation, consult local representative.
