Snows on Hitler

The snows of winter are falling again on the great German blitzkrieg in Russia, and Hitler is facing the cold facts of defeat on all his battle fronts. The siege of Stalingrad has reached a stalemate, with the offensive in the hands of the Russians. In the Caucasus the German armies are making little advance. In Africa the Axis forces are gaining but the Allies are pounding the life out of them, which is also true at Malta in the Mediterranean.

The Russians are in overcoats and winter quarters, and Hitler cannot withdraw armies from the Volga and the Caucasus for support of Africa or the western front. The Soviets will drive his weakened forces backward and perhaps to utter rout.

Revolution is rife in all the conquered countries. Italy has been reduced to a puppet state of Germany, and is willing to quit. Japan is being steadily vanquished in the south seas and held back in China. Such is the condition of our enemies as winter approaches.

On the other hand the Allies are gaining and growing stronger on every front. The British have tremendous defenses in the middle east, and a million men and another similar army in India. They have taken Madagascar, and now control the supply life lines to the Red Sea and to China through India. Our convoys are reaching England with immense supplies of tanks, planes and men, ready for an invasion of Europe. Convoys also reach Russia by way of Murmansk, and through the Siberian railway, and over the Red Sea and Middle East railway to the Caucasus.

This country is in full speed with war production of all kinds, including ships to replace those destroyed by submarines. Spring will find us in much greater production. In the meantime, we are assured that many more cities of the Reich will be attacked from the air.

Nor are we slacking in our effort and determination to win final unconditional surrender. This may come in 1943, but not until it comes and peace is established will we halt our work. Bond buying, taxes, preparation on all lines must go on and on until we finish the big job, and finish it beyond any possible return in another 20 years.

WAR CREATES PROBLEMS

Among the many unusual problems created by the war is that of keeping your insurance adjusted to changed conditions.

An important instance of this is the effect of war economy on the value of your house or commercial property that you own. Even if you have spent no money on improvements, their sale or replacement value is probably higher than a year ago - and your insurance coverage should be increased proportionately.

"Come thou with us and we will do thee good."

Would You Work for \$1.94 A DAY?

WOULD you give up your present income for two months to work from 12 to 16 hours a day for \$1.94. Of course you wouldn't—neither would anyone else. And you wouldn't ask anyone to work for this less-than-bare-living wage. \$1.94 was the rate of pay for members of the 1941 Oregon legislature. This did not pay for one-fourth of their actual living expenses in working day and night to give you fair and just laws.

Play Fair With Your Lawmakers

You can assure that your representatives in the Oregon legislature will receive fair and reasonable pay by voting 300 X YES on November 3 for the measure to increase the pay of Oregon legislators from \$3 to \$8 a day for a 50-day session, only. In these critical times, Oregon needs its most able citizens as legislators. They must be given adequate pay. Remember, sound legislation comes from sound legislators.

Poor Man's Chances Blocked by Pay Now

Under the present inadequate pay for legislators, a poor man can't afford to serve in the legislature. This is not American representative government! This is not true democracy!

The present rate of pay was fixed in 1859 or 83 years ago. \$3 a day then would be equal to \$30 a day now. Oregon pays its legislators less than any other state in the Union.

Oregon Needs its Best Legislators. Give Them Adequate Pay

This pay increase measure has been endorsed by

- American Legion
- Congress of Industrial Organization
- American Federation of Labor
- Oregon State Grange
- League of Women Voters
- And many other fair-minded groups.
