

Wings of Victory

Electricity helps make America's war planes some of the world's most deadly weapons. Here are a few of the ways in which G-E equipment serves in the air.

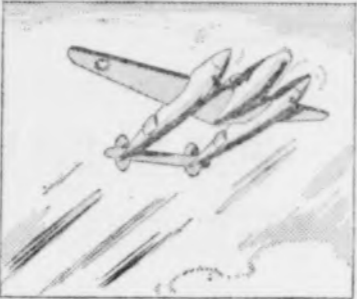

1. Lamps are the eyes of the plane at night, ranging in size from cockpit lamps no larger than a pea to landing lamps of more than half-a-million candlepower.

2. Radio combines the voice and the ears of the plane, allowing communication between the pilot and his squadron, and the ground and sea forces.

3. Instruments are the sensitive brain that relays messages to the pilot from all parts of the ship and helps him to control the plane in its flight.

4. Superchargers are the lungs of the plane, pumping extra oxygen to the carburetors, giving our planes the altitude so necessary to modern warfare.

General Electric believes that its first duty as a good citizen is to be a good soldier.

MANY PRESENT AT GRANGE MEET

A group of approximately 90 Grangers and friends attended a special meeting at the Westland grange last Friday evening when a program, dancing and chicken noodles and rolls were highlights. Marian Rice, Lecturer, expressed her gratification for the number and spirit of the visitors and heartily thanked everyone who aided with the program. The many beautiful flowers were later given to the U.S.O. The next meeting of the group will be Friday, October 23, according to Mrs. Mabel Corliss.

Farm WAR NEWS

Meat From Wheat
The feed wheat program is helping put Oregon farm production on a factory basis, the state USDA War Board reports. Hundreds of tons of wheat from the Ever-Normal granary have been fed to Oregon livestock and poultry, converted into meat, milk, wool and eggs.

Truck Registration October 22-24
October 22, 23 and 24 are important dates for every county farmer who owns a truck. During this period, the Umatilla county farm transportation committee will assist farm truck owners to apply for Certificates of War Necessity, which every truck owner must have to operate after November 15.

Wheat Loan Rates Stay Put
Government loan rates for wheat and corn will not be increased by the President's control program, because such advances would increase the cost of feed and tend to curtail the output of livestock products, Secretary Wickard announced this week. Loan rates will be increased for cotton, tobacco, rice and peanuts.

Truck Bumpers Scrapped
Claus Christiansen, Toledo dairy farmer, believes that action speaks louder than words. As chairman of the Lincoln county USDA War Board he has been urging farmers to turn in their scrap metal. This week the Christiansen dairy trucks were sporting stout wooden boards for bumpers fore and aft. The metal bumpers had gone into the scrap pile.

Russians Get U. S. Food
Oregon pork and dairy products may be helping the Russians hold out at Stalingrad, the State USDA War Board reports after being advised that an increasing volume of lend-lease food is reaching Russia. A total of 3.4 billion pounds of American farm products have been bought by the AMA for lend-lease shipment since the program started 1 1/2 years ago.

Priorities Assistance Offered
Farmers needing equipment or supplies for which priority ratings are required can obtain assistance from the county USDA War Board in making application on form PD-1A.

'43 Farm Task Tough
Only "stout effort" by the nation's farmers can bring the food production needed in 1943, Fred S. Wallace, national AAA and War Board chief, reports after surveying the farm production in a number of states.

Gas For Migratory Workers
Migratory farm workers will not be stranded away from home by the advent of gas rationing, the state USDA War Board has been informed. Farm workers away from home who decide to stay in the area where they are now working will be allowed gasoline rations to carry on their work, and to

get back to home towns when their work is over.

Rationing Board After Scrapiron
The Lane county farm machinery rationing committee suggests that all applicants for Class A "scrap" machinery, be required to turn in their scrap iron before the rationing committee issues a certificate. The committee points out that the more scrap turned in, the better the chance of steel being available for new farm machinery.

FIRST RAINFALL RECORDED HERE

Pleasant relief from an extended dry period was experienced Saturday when a total of .11 inch precipitation was recorded. The rain came as a signal for all hunters to be on the alert and true to predictions radio reports came in that afternoon that Oregon forests had been thrown open for hunting and fishing.

The report for the week is as follows:

Date	Max.	Min.
October 8	79	41
October 9	82	46
October 10	80	51
October 11	68	52
October 12	66	41
October 13	67	39

FARMERS TO GET MACHINERY HELP

Farmers will have an opportunity this winter to bring in their farm machinery to local garages, blacksmith shops and school vocational agricultural shops and receive help from local mechanics in getting their machinery repaired. O. I. Paulson, State Director of War Production Training, recently announced.

A group of ten or more farmers in a community may make requests through the principal or vocational agricultural teacher of any high school for help in organizing a training class of this kind.

The salaries of local mechanics serving as instructors and other operating costs will be paid from government funds. With the scarcity of new farm machinery, this program gives the farmer an opportunity to learn how to keep his old machinery in efficient operation for the duration, states Mr. Paulson.

Farm commodity courses for the purpose of helping to increase pork, lamb, beef, commercial gardening, poultry, and dairy products are also available under the Rural War Production Training Program.

AAA Phosphate Available

The county farm machinery rationing committee calls attention to time requirements in the present rationing program. Farmers who obtain a certificate for new machinery in Class A must purchase the machine within ten days, and take delivery before November 1.

NOTICE TO THE PUBLIC

I do hereby publicly declare that hereafter I will not be responsible for any bill incurred by any other than myself.

Signed, J. H. Logan.
(Oct. 15-29)

NOTICE OF SEASONAL DETERMINATION

Notice is hereby given that the employers listed below have been determined to be seasonal employers with in the meaning of Section 126-707 O.C.L.A. Any interested party may request a hearing before the Commission within ten days after final publication of this notice. The "off-season" (in calendar weeks) of each seasonal employer in Umatilla County is as stated below:

WANTS

WANTED—PIANO TO KEEP FOR storage. Good care. Also want to buy treadle sewing machine. Mrs. W. T. Davis, Route 2, Hermiston, One mile North of Tertletown. 9-1p

APPLES FOR SALE—50c BOX. Bring container. H. G. Kludiskofsky, next to Emmett Cooney, Umatilla, Oregon. 9-3c

We're fighting this war in the hoglot!

There's fighting energy in a slab of ham or a side of bacon—that's why our Government wants us to produce all the pork we can.

There's economy of pork production in DR. HESS HOG SPECIAL, according to the Research Farm figures. The HOG SPECIAL hogs are ready for market sooner and on as much as a third less supplement and a tenth less grain.

A lot of hogmen are adding the tonics and minerals of HOG SPECIAL to their ration today. We surely believe it will pay you to add it to your ration. See us about HOG SPECIAL soon.

ADVERTISEMENT FOR BIDS

Sealed bids will be received by the City Recorder, at Hermiston, Oregon, until Oct. 24, 1942, at 8:00 p. m., for the construction of a Bio-filter or Aero-filter type sewage disposal plant complete and three sewage lift pumping plants complete, for the City of Hermiston, and will then and there be opened and publicly read aloud. Bids received after the time fixed for opening will not be considered.

Plans, specifications and forms of contract documents may be examined at the City Recorder's office and at the Consulting Engineers office, 909 Bedell Building, Portland, Oregon, and a set of said plans, specifications, and forms may be obtained at the office of R. H. Corey, Consulting Engineer, 909 Bedell Bldg., Portland, Oregon, upon a deposit of \$10.00.

The full amount of deposit for one set of documents will be returned to each actual bidder within a reasonable time after receipt of bids. Other deposits will be refunded with deduction not exceeding the actual cost of reproduction of the drawings, upon the return of all documents in good condition within 30 days after the date of opening bids.

Each bid shall be accompanied by a certified check, cashier's check or bid bond (with authorized surety company as surety) made payable to the owner in amount not less than 5 per cent of the amount of bid.

The City of Hermiston reserves the right to base its award of contract on either of the two types of systems specified and to reject any or all bids, and to waive informalities.

No bidder may withdraw his bid after the hour set for the opening thereof, or before award of contract, unless said award is delayed for a period exceeding 30 days.

Attention is directed to the A-1-A priority assigned to this project.

CITY OF HERMISTON,
F. C. McKenzie, Mayor.
