Union Pacific plays its part in building a healthy America by hauling tons of grain and other western-grown products for our homes and our men in service. It plays its part in maintaining American freedom by transporting huge shipments of armament, trainloads of troops over "the Strategic Middle Route" uniting the East with the West.

All Union Pacific employes realize that this is a job that must be done—and they're doing it. Day in and day out, they're "keeping 'em rolling" to back up Uncle Sam.
