Furnace fires glow and smoke surges from the stacks of thousands of industrial plants producing an ever-increasing quantity of planes, tanks, guns and other implements of war. That's the smoke that gets in the eyes of the Axis.

Raw materials and completed units are loaded on long rows of freight cars, go rumbling across country in a never-ending procession, hauled by gigantic locomotives followed by trails of smoke—smoke that smarts the eyes of Hitler and Hirohito.

Smoke 'em out!—that's our job. Union Pacific, the Strategic Middle Route connecting West with East, is doing its part by "keeping 'em rolling." Thousands of Union Pacific employees are working tirelessly—and buying War Bonds generously—for victory!
