DEC. 1 DEADLINE FOR EXTRA TIRES

Motorists will be given an extra nine days in which to dispose of idle tires in order to qualify for use of gasoline under the gasoline rationing regulations, the Office of Price Administration announced today.

Previously the deadline was November 22.

MOTORISTS ASK MORE GASOLINE

He must first of all obtain an application form from the rationing board or elsewhere and fill it out, mailing the completed form to the local rationing board.

All applications will be processed and each applicant will be notified by postal card before December 1, the amount of mileage which has been allowed, a "B" book or "C" book issued, or that his application for supplemental rations denied. Should the motorist not be satisfied with the board's decision he may appeal his case, first to the local board, then to the state OPA office or even to the regional or national offices of OPA.
