Announcing

VICTORY SERVICE LEAGUE

A worthy War Effort needing the support of every loyal American. Save the wheels that serve America.

To the Public:

On December 7th, 1941, the United States changed from a nation at peace to a nation at WAR. The winning of this war is the one major duty and responsibility of every American. Every earnest, loyal American wants and should do his share toward this effort.

Our government and military officials have made splendid progress in enlisting the active participation of many civilian groups in vital war activities. These groups are doing their utmost to be of help in war activities. Most of these Americans have sons and daughters in the services and they want to be Allied with them in service to their country. Community leadership has taught them to think, plan, work and act in unison and their experience and leadership can be used advantageously in any effort that will help in the winning of the war.

Now the Chevrolet dealer organization, 8000 strong and located in all sections of the United States, have united in a nationwide patriotic program to do their part in winning the war. A total of 75,000 trained Chevrolet service personnel with millions of dollars in service equipment for years have specialized in the maintenance and service of millions upon millions of passenger cars. This vast army has united in another war effort.

Their job is two-fold: 1. Actively participate in making every patriotic effort successful. 2. Save the wheels that serve America. Chevrolet dealers and their employees have pledged themselves to this worthy cause.

Our nation's 27,000,000 cars and 5,000,000 trucks are the backbone of

our civilian transportation system. They must continue to serve America for a long time. America needs a minimum of 20,000,000 passenger cars and every available truck (5,000,000) to preserve essential mobility. Today 16 million passenger cars and trucks are five years old or older. They must be kept in service. The annual car and truck death rate is 2,358,000 and production is exactly 0. We must preserve the present transportation facilities.

For this purpose the Victory Service League has been organized, to make American citizens more conscious of the necessity of prolonging the life of present car transportation. Everyone is invited to join in this fine war effort. There are absolutely no strings attached or dues to be paid. All you do is to sign a pledge that you will live up to the ideals of the Victory Service League and work for its success. A free automobile handbook and membership cards are available at the Hermiston Auto Co. The handbook contains hundreds of ways to help preserve the life of your car. Get yours as soon as possible.

Signed: CHAS. HODGE.

You are invited to join the Crusade to actively lead the way in conserving America's Automobile Transportation System. Are you willing to sign this--

NATIONAL VICTORY SERVICE LEAGUE PLEDGE

In the name of Victory
and in full allegiance to my country, the United States of America,

I PLEDGE
to remember that this is every man's and every woman's war and that it behooves us all to serve as we can serve best;

I PLEDGE
to cooperate wholeheartedly in each and every national, state and community effort to safeguard the freedom for which America stands;

I PLEDGE
to conserve—and to help others conserve—America's vital transportation lifeline by protecting and preserving the cars and trucks that will keep America mobile and make it an invincible nation of free men and women;

I PLEDGE
to THINK Victory — WILL Victory — WORK for Victory — and to continue doing so until Victory is completely and decisively won.

I make this pledge in good faith and sincerely dedicate myself to the purposes and principles of the National Victory Service League.
