

NOW, when all America looks hopefully to a new and better year, we pause to take stock of our assets, and find that chief among them is the good will of our many customers.

So we renew our pledge to do everything in our power to merit a continuance of your good will. There are clouds on the horizon, and clouds in the zenith, too, but we face the future with the firm conviction that now, on the threshold of 1943, we may truly say, as in the past, we wish you a Very Happy New Year.

MILITARY PLAN IN COLLEGE IS CLARIFIED

Oregon State College—"Stay in college until called to military service," the advice given men students by Manpower Commissioner Paul V. McNutt, is seconded here by adminis-

trative officials after studying recent announcements of the educational plan worked out by the army and navy.

The plan announced for contracting with selected colleges to train enlisted men in uniform in specified technical fields has the full approval of officials here and is in line with previous proposals by many educational groups. It is assumed that this

will apply, among others, to all those now enlisted in navy or army reserve programs and those in advanced ROTC courses.

Several months, however, may be needed for this program to be put into operation, officials here believe. Pending that time, and even afterwards, there is every reason for men to continue their college work and for high school graduates to start, according to Commissioner McNutt and to educators here.

With voluntary enlistments closed for special cases, and with selective service boards given definite instructions as to who would be left in college and who should not, there no longer is a question of patriotism involved, it is pointed out here.

More stable conditions than have existed since last fall are now foreseen, as men will know that the government will call them either for active service or to assign them to college when wanted, pending which call they can continue as usual. Should the call come within a term, provision is made for the refund of unused fees and for granting full credit earned.

Senior high school students eligible for graduation in midyear who desire to start to college can, in most instances, be released to enter the winter term starting here Tuesday, December 29.

Restrictions in sizes and forms of asphalt and tarred roofing products and asphalt shingles will save 2,150,000 man hours per year, 250 tons of steel, and 60,000 tons of asphalt.

ALL OF US HAVE MOVED STEADILY FORWARD THROUGH A TRYING YEAR, WITH OUR HEADS UP AND COURAGE HIGH. OUR SINCERE WISH IS THAT THE NEW YEAR OF 1943 SHALL BRING NEW VISION, NEW COURAGE, NEW REASON FOR HOPE AND OPTIMISM, AND THAT IT WILL BRING MANY UNEXPECTED REWARDS TO YOU.

The New Orleans fat salvage campaign stresses used fats by telling housewives that waste fat from a half-dozen fried soft shell crabs makes enough glycerine, processed into explosives, to fire one 37mm. anti-tank shell.

By preventing purchasers of new electric motors from buying motors with more horse power than their work requires, the Government will save 15 million pounds of copper, 55,000 tons of carbon steel, and 150 pounds of stainless steel annually.
