A message from Dr. Townsend—
"HAS GOD FORGOTTEN?"

Dr. Townsend says, "No." For over three weeks Captain Eddie Rickenbacker and his companions floated on a small rubber raft in the Pacific. Through this harrowing experience Captain Rickenbacker never lost his faith. He held his religion. He knew that God had not forgotten. Captain Rickenbacker said, "I hold to the Golden Rule and I believe most firmly that if a man just follows what he truly knows and feels in his heart, then he cannot go wrong and is possessed of religion enough to get by in any man's land." Then when Captain Rickenbacker stepped ashore he turned to one of his companions, Private Bartex, and said, "You had better thank God for your Testament, son. You can now see what faith can do for you."

God has not forgotten. He had not forgotten Captain Rickenbacker and his brave companions. He has not forgotten our great country and our brave men in service. He will see us through to victory. God has not forgotten the aged. I have supreme faith that God will continue to give me strength so that I may continue in my fight for our country's aged. I know God has not forgotten and I know He will see me through to victory in my fight.

All Townsendites that have this faith will help Dr. Townsend in this fight for victory.

SAFEWAY Homemakers' Guide

Meal Planning in Wartime

We're making readjustments everywhere these days. Even our menus come in for drastic changes now that so many of our taken-for-granted foods are being drafted for service on other fronts. Meals are likely to be a bit topsy-turvy with eggs, for example, going over to the dinner menu, and being replaced at breakfast with whole grain cereals. But even if foods have to be shifted around, our meals shouldn't . . . mustn't be lopsided or out of balance.

Nutrition's the Thing

The pace we've set for ourselves on the home front makes it doubly important that we get our full quota of health and energy-giving vitamins, minerals, proteins and other food essentials. That's where a working knowledge of nutrition pays dividends. If you have more than a flavor acquaintance with foods . . . if you know what each contributes to the well being of the family, then it is a simple matter of nutritional calculation to know what replacements to make on the menu.

For instance, if you've used your quota of meat for the time, then you can build your menu around other protein-rich foods such as eggs, cheese, dried beans and peas, fish or fowl.

Avoid Monotony

As the variety of foods grows less, meals are likely to become a trifle on the tiresome side. Get out of the cooking rut by serving those day-in-and-day-out foods a little different each time.
