Both are at BATTLE STATIONS

BATTLES these days are fought in the air, on sea, on land—and with the help of the Nation's communication lines.

Operators, handling the greatest volume of calls in the telephone's history—calls dealing largely with war and war production—occupy a "battle station" of vital importance.

You can help them to bring Victory closer. Though materials for more telephone lines are not available, due to war's requirements, you can help keep the lines clear for war by making only vital calls to the war-busy centers.

Your cooperation helps us to serve you and our Country. We deeply appreciate it.
