### LOCAL FARMERS TO COOPERATE IN WAR PROGRAM

A drive to enlist every Umatilla county farmer in the 1943 production program and to make sure that each farm is equipped and in gear for production of essential foods up to its full capacity was launched January 18, 1943, by the Umatilla county U.S. War Board.

Every farmer will be contacted by AAA committeemen and supervisors at a series of community sign-up meetings throughout the county starting on that date and continuing during the week or any farmer who is unable to get to his community sign-up, may do so at the county Triple A office, until the county's agricultural resources are fully mobilized for the coming year's tough war production year.

Farmers in this area will register until Saturday at the Hermiston USO beginning each morning at 9:00 a. m. Members of the committee are: Ralph Saylor, chairman; Clint Jackson, Gaylord Madison, Wm. Kik, Jess Arnold and Henry Kopacz, AAA chairman.

The committeemen will help each farmer work out a farm plan that will enable his farm to contribute a maximum of the essential commodities needed to win the war. An inventory of the farm's production resources will be taken, war crops goals will be determined, and soil-building practices that will boost production will be worked out for the coming year.

A. R. Coppock, county War Board

chairman, emphasized that gathering statistics is not the primary purpose of the sign-up. Main objective is to enable maximum help to be given each farmer in developing and carrying out the most effective possible plan for his 1943 war production. He listed five objectives:

1. Developing a 1943 production plan for every farm in line with the war goals as this county's share of the minimum amounts of food needed the coming year.

2. Locating those farmers who need special assistance in carrying out their war production program.

3. Assisting the county War Board in determining each farmer's eligibility for rationed supplies.

4. Assisting the Selective Service Board by providing information for classification and deferment of essential workers.

5. Locating farms on which there is labor and machinery that could be used on other farms.

A farm plan and worksheet will be used to accomplish this, Mr. Coppock explained. The farm plan itself will constitute a "production contract" between the farmer and his government. It will be worked out on the basis of information from the work sheet, which will determine the farm's war rating under the "war units" plan for draft deferment; provide an inventory of what each farm has or needs to get the production, and show each farm's man-power resources, including future labor needs.

Members of the county War Board will each have supervision of the drive for a section of the county, and will be responsible for seeing that emergency needs for assistance re-

vealed by the sign-up are given prompt attention.

Mr. Coppock called for the cooperation of every farm family in getting a 100 per cent mobilization for the county. He pointed out that the committeemen are giving time from their own farms for the drive, and asked for full attendance at community meetings to get the job done as speedily as possible.

### PILGRIM HOLINESS CHURCH

J. W. Stuart, Minister

The worthless man is he who has no capacity for concern. A good epitaph if true: He never fought a selfish fight, or dodged a duty to the right. The terminal station of our life depends upon which switch we turn. The optimist is one who always is busy doing something worth while.

Sunday Bible school at 9:45 a. m. Classes for all.

Morning service at 11 a. m. Young people's service at 7 p. m. Song and praise service and a message from the book of Revelation. We will be glad to see you at this service.

Prayer meeting Wednesday at 8 p. m.

### CENTRAL CHURCH OF CHRIST

C. Warner, Pastor

The church will continue to worship Sunday morning around the theme, "God," using as a sermon topic, "Who Is God?" The world, in general, is crying out to God, more than at any time since the dawn of history. We are preaching a series of sermons on that boundless theme. The sermon topic for Sunday evening will be, "The Living Lord."

The Palmer Missionary group No. 1 will meet Thursday of next week, January 28.

### CHRISTIAN SCIENCE CHURCHES

"LIFE" was the subject of the Lesson - Sermon in all Churches of Christ, Scientist, on Sunday, January 17.

The Golden Text was, "The gift of God is eternal life through Jesus Christ our Lord" (Rom. 6:23).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "My son, forget not my law; but let thine heart keep my commandments: for length of days, and long life, and peace, shall they add to thee" (Prov. 3:1,2).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The understanding that Life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality. This faith relies upon an understood Principle. This Principle makes whole the diseased, and brings out the enduring and harmonious phases of things" (p. 437).

### PENTECOSTAL TABERNACLE

Pastor S. E. Graves

Our young people's group, the past few Sunday evenings, have been well attended. Also the old fashioned music and singing has been enjoyed immensely by all. Everyone is given a hearty invitation to attend these services.

Sunday, 10 a. m., Bible school. Our lessons are certainly inspiring for these days when it seems everything is failing; we need the whole Word of God that will never fail.

11 a. m., Worship hour.

7:00 p. m., Young People's meeting.

Thursday, 8:00 p. m., Bible study on the tabernacles. This is a very interesting Bible study.

Come and enjoy the warm welcome and the fellowship of the Saints of God.

### TRINITY LUTHERAN CHURCH

E. M. Butenshon, Minister

There will be Lutheran services at the Baptist church on February 7.

Sunday School at 1:30 p. m. and services at 2:30 p. m.

E. M. Butenshon, pastor, 811 N.W. Carden Ave., Pendleton, Oregon.

**Old-Fashioned BAKED BEANS**

are **Hard to Beat** for **Food Value Economy Mealtime Enjoyment**

Look into your cupboard today—if you do not already have a good supply of beans and other staple dried foods, this is a grand opportunity to stock up. Beans are a Victory Food Special—another good reason for buying them—NOW!

### Bonus meats in the menu

There's no need of too much worry about making your meat allowance stretch when there are all those delicious bonus meats that can be had (at least at this writing). I speak of sundry meats such as liver, heart, kidney, pig's feet and all those extras that don't come in on the meat quota.

As far as nutritional value goes, they have everything that other meats have, and in most cases, more too. Liver, heart, and kidney are right on top of the list when it comes to contributing iron to the diet. They're vitamin foods, too, for they contain vitamins A, B, C, and some D.

If you've built up a psychological resistance toward them, it is most likely because you've probably never tried them. But if you like chicken giblets, then you're bound to like these bonus meats.

**MOCK GIBLET NOODLES**—Saute small pieces of liver or kidney or pre-cooked heart in hot shortening. Make a sauce out of the pan drippings or use mushroom sauce and add meat and sauce to hot noodles. Don't pass judgment on sundries until you've tried this dish.

**SPANISH KIDNEY**—Remove white centers and tubes of kidneys, slice into thin slices, brown quickly in hot shortening along with chopped onion. Cover with tomato sauce or canned tomatoes and steam for about 15 minutes. Serve with rice or spaghetti.

**LIVER BURGERS**—Grind uncooked liver, using the coarse knife of the grinder, add about 1/4 as much bread crumbs, chopped onions and seasonings to taste. Add enough beaten egg or evaporated milk to bind mixture. Shape into patties and fry quickly. Grand with whole kernel corn.
