Your Certified Independent Grocer

THE BIG JOB!

Our soldiers, sailors and marines, who are carrying the fight to our enemies on battlefronts all over the world, must have everything they need in order to make their fight successful.

The BIG JOB of the O. P. A. and the distributing industry is to feed the American people with what is left. Shortages in some essential foods are here already, so let us remember that rationing is NECESSARY in order that "scarce" foods be equitably distributed—that each American shall have his share.

Let us all remember too, as we are compelled to go into "point rationing" with its inconveniences and extra work, that it can and will do the job in a normal democratic way. Let us look at it as OUR PART in the war effort. You can be sure your Retail Grocer will be doing his share to make it work.

STARTING MIDNIGHT, SATURDAY, FEBRUARY 20, and continuing for a whole week, many items will be frozen on the grocer's shelves by government order. These items include—

- Canned and Bottled Fruits and Juices
- Canned and Bottled Vegetables and Vegetable Juices
- Canned Soups and Dried Fruits

(You are encouraged to buy a week's supply of these items this week end.)
