SAFEWAY

Homemakers' Guide

Five minutes earlier for your health's sake

cutting down on breakfast is a question of time, and it usually is, then set the alarm for a little earlier than usual and take time for a nourishing meal. Much of the preparation can be done the night before such as having table set, the batter with the exception of melted shortening mixed for hot cakes, waffles, or muffins, or having the biscuits in their pan and waiting in the refrigerator.

PATTERN FOR BREAKFAST—If your breakfast pattern has been upset by the rationing program, remember that this meal can still be a well-balanced one. Fruit, cereal, bread in some form and that one cup of coffee supply energy, vitamins, minerals, calories, and that grand satisfaction.

FRUITS—Whole fruits such as sliced oranges or baked apples are most filling and have more lasting qualities than fruit juices. Unstrained juices have the same advantage over strained juices. Vary the fruit in some way each day, and don't have too many repeaters. For example, serve apples baked, as a sauce, or fried.

CEREALS—There's a kind for every taste. Vary them from time to time for interest, and alternate cooked cereals with ready-to-serve ones. Molasses, honey, corn syrup, maple-flavored syrup and fruits and fruit-sauces add a pleasant change to cereals, and help the sugar bowl too.

BREAKFAST BREAD—Toast is the morning standby, but here, variety is welcome also. Serve toast plain, as French toast, cinnamon toast, or toasted jelly sandwiches. Enriched bread gives extra vitamins that we all can use.
