### SUGAR

May 31—Stamp No. 12, book No. 1, good for five pounds, expires at midnight.

### COFFEE

April 25—Stamp No. 26, book No. 1, good for one pound, expires at midnight.

### SHOES

June 15—Stamp No. 17, book No. 1, valid for purchase of one pair of shoes, expires at midnight. Stamps are interchangeable within the family.

### FUEL BOOK

April 8—Period 4 coupons valid through this date; period 5 coupons valid March 26 through September 30. Heating coupons—one unit, value ten gallons; ten units, 100 gallons.

### GASOLINE

May 21—No. 5 stamps, in A book, each good for four gallons, expire at midnight.

### TIRES

May 31—Cars with C books must have tires inspected by this date; B books by June 30. First inspection for A bookholders must have been made by March 31; subsequent inspections within every six-month period thereafter, but at least 90 days apart. September 30 next tire inspection deadline for A books.

## IRRIGATION FOR CITY PROMISED

If no unforeseen circumstances arise, city irrigation will begin Thursday, April 15, according to B. Haneline, city manager. Mr. Haneline stated that due to the fact that there are about 40 new places to irrigate this year, some revision might be necessary from the plans of former years but that the entire city would be covered Thursday, Friday and Saturday even though some night work might be necessary. He urged that residents clean out all their ditches in order that there be no delay in getting around with the water.

April 1	76	46
April 2	72	41
April 3	61	33
April 4	61	33
April 5	64	40
April 6	69	40

## Music Program Friday

### Section I—Band Concert

1. March, El Capitan ..... Sousa
2. Paraphrase on America ..... Humphreys
3. Waltz, Tales from the Vienna Woods ..... Strauss
4. Romanza, The Dying Poet ..... Gottschalk

OFFICIAL UMATILLA COUNTY PAPER

VOLUME XXXVI

HERMISTON, UMATILLA COUNTY, OREGON, APRIL 8, 1943.

NUMBER 34

## Workers Rush Housing Units at Ordnance for Employees of U. O. D.

Above is a perspective drawing by Roi L. Morin, Portland architect, of the housing project at Ordnance, now in process of construction adjacent to the Umatilla ordnance depot. At the upper left is the water tower and baseball diamond; lower center are the community and commercial buildings, with the bulk of the tract. The main highway parallels the project. Landscaping includes a long windbreak fence and a double row of trees. —Cut Courtesy East Oregonian

## CONNECTIONS OF SEWERS STOPPED

Attention has been brought to city officials that some enthusiastic residents are already and other planning to connect to the city sewer mains recently completed by DeBlasio & Sons. These citizens are instructed that no connections will be allowed until properly instructed by some qualified person.

**Immunization Clinic at Echo**  
 The final immunization clinic will be held at Echo school on Tuesday, April 13th from 10 to 11 a. m. Parents with pre-school children over 9 months of age are invited to attend. Protection against diphtheria and smallpox will be offered. This clinic is sponsored by the Umatilla County Health Unit.

## SECOND WAR FUND CAMPAIGN TO START MONDAY IN NATION

### MAYOR NAMES COMMITTEE HERE

One of the largest projects ever undertaken in the United States will be launched next Monday, April 12, when the second war finance bond drive will seek to raise thirteen billion dollars in less than a month—or an average of \$100 worth of bonds for each person in the United States. This means that in Umatilla county a total of \$3,500,000 will need to be raised via the bond method.

These facts were given out at a meeting of representatives from Echo, Stanfield, Umatilla, U.O.D. and Hermiston Tuesday evening at the local U.S.O. building when Will Glass and Guy Johnson, co-chairmen of Umatilla county, were present to discuss the forthcoming drive with west end leaders. Arrangements for the meeting were made by Sam Moore, west end chairman.

The two-fold purpose of the war finance drive is (1) to finance the war against the Axis and (2) help avoid inflation through getting surplus money into the channels in which it can do the most good for the nation. The U. S. treasury is emphasizing this request: "Divert into the purchase of extra bonds every cent not absolutely needed for food, shelter and other necessities of life for the three weeks beginning April 12. In order to gain as much cooperation as possible, it has been planned to combine the Victory Fund Committee and the War Savings Staff, into a War Finance Committee.

Every establishment in the state employing 25 or more persons will be asked to join in a "purchase equipment" campaign during April. The concern or other groups participating will be asked to select some piece of army or navy equipment such as a bomber, fighter, anti-aircraft gun—in fact, anything from a battleship down—and purchase enough bonds inside the group to pay for it.

At the meeting Tuesday the mayors of each city were named chairmen for their respective towns and each instructed to organize his own committee. It is planned to contact every resident in the county with volunteer workers cooperating in the drive.

Mayor F. C. McKenzie of Hermiston Wednesday appointed the following committee to work in this city: Charles Hodge, O. C. Pierce, W. E. Logan, A. M. Thrasher, F. B. Swayze, W. G. Kersbergen, J. G. Pearson, Pete Berg, Troy Griffin, Mrs. George Harkenrider, Mrs. B. J. Nation, Mrs. F. C. McKenzie, Mrs. O. O. Felthouse, Mrs. Curtis Simons, Mrs. Herbert K. Iverson, Mrs. Glenn Ripley, Mrs. Harry Nelson and Mrs. Sam Moore. A meeting of this group will be held in the library basement Friday night at 8:15 at which time plans will be discussed for the campaign.

The slogan for the drive will be, "They give their lives, you lend your dollars." An advertisement giving more details of the campaign will be found on Page Four of this issue. The cost of the page has been sponsored by the various business men listed at the bottom.

## ANNUAL CONFAB OF CARPENTERS HERE NEXT WEEK

The 18th annual convention of the District Council of Carpenters & Joiners of America will be held in Hermiston next week, April 16, 17 and 18, according to Roy White, local business agent, who is in charge of the general arrangements. It is expected that between 200 and 300 representatives will attend unless transportation facilities prevent.

The credential committee will meet Friday morning, but the general assembly will not be called to order until 1:00 o'clock in the building recently redecorated on Second street at the roof of the Igloo Inn. Opening features of the convention will include an invocation, an address of welcome by Mayor F. C. McKenzie, music by the high school band, and other short talks by various dignitaries. The Hermiston state guard will present the colors, with the same organization sponsoring a dance in the evening. A complete program of the convention will be printed next week.

In connection with the forthcoming convention, announcement is being made that Guy C. Cronk has leased the Igloo Inn and is now remodeling and redecorating both the bar side and the cafe. Mr. Cronk hopes to have the bar open for the carpenters and general public by next week end but will not open the cafe to the public until after the convention and a complete changeover into a cafeteria can be completed. He will, however, serve meals to the delegates of the convention. Mr. Cronk is planning to have a grand opening for his cafeteria in the near future with announcement of this event to appear in next week's Herald.

## DOUGLAS FARM SOLD FOR CASH

One of the largest farm sales in recent months was reported this week when Mr. and Mrs. L. W. Douglas disposed of their property near Hermiston to Mrs. Dorothy Patterson, daughter of Mrs. Catherine Folsom of Pendleton. Mrs. Patterson and small daughter will reside on the place. The transaction was for \$6000.00 cash payment which included the buildings, 15 acres of land and some stock.

Mr. and Mrs. Douglas have resided on the property for the past fifteen years and are somewhat undecided as to the future. They plan to locate, in the near future, on some small ranch in the Willamette valley.

## SHIP RELIC IS DISPLAYED HERE

Roy White, business agent of the carpenters local here, this week returned from Portland with a souvenir from the Battleship Oregon which is now in the process of wrecking. The relic is in the form of a table leaf from the officers' quarters upon which many official documents have been signed during the life of the historic ship.

The board will be cut up in many small pieces and properly marked for distribution to war bond buyers during the forthcoming campaign.

## GARDEN CLUB TO PLANT GARDENS

A most opportune theme for this year's project of the Hermiston Garden club will be "Raise a garden for Victory." Due to the extreme need for vegetables, club members are planning to take an active part in aiding the war effort.

The first meeting of the year will be held Tuesday, April 13, at 2:30 in the U. S. O. building. Present will be Gene Lear, assistant county agent, who will talk on "Victory Gardens." It is hoped that many ladies of the community will take advantage of this opportunity to hear Mr. Lear and to discuss problems of small garden growers.

## PHEASANT CAFE TO OPEN MONDAY

Hermiston merchants will welcome an old member back into the official family Monday when Ben O'Conner will reopen the Pheasant Cafe. Local people will not recognize the cafe at first glance as the building has been completely renovated including new wiring, plumbing, painting, new floors and equipment. Several new features have been added, making the concern one of the most modern in this region.

A total of 38 stools surround a horseshoe counter, making it convenient for both customers and the waitresses.

## FIRE DESTROYS DODD PROPERTY

The second serious farm fire in recent weeks totally destroyed a five-room structure, a trailer and a tent house Wednesday afternoon on the E. P. Dodd property about a mile west of Hermiston. Mr. and Mrs. W. B. Denman and Mr. and Mrs. Clarence Denman and family, who were renting the property, lost all their furniture and personal belongings except a washing machine.

The Denmans were working in a garden a short distance from the house and discovered the fire too late to save anything. The estimated loss was around \$2000 with half of this covered by insurance. Helpful friends and neighbors came to the rescue of the Denmans and by nightfall had accumulated sufficient goods to get by for a time.

## BABY CHICKS ARE INTEREST CENTER

Prominently displayed in the window of the Oregon Hardware & Implement Co. this week is a flock of baby chicks. The tiny fellows are stealing the spotlight of window shoppers, especially at night when the chicks refuse to go to bed and insist on "night life".

The project is somewhat entangled because of the many hands participating. The chicks themselves come from "Vigorbilt" Hatchery, N. J. Van Skike, owner; the brooder is furnished by the Hermiston Grain & Feed Co.; the window through the courtesy of the Oregon Hardware and it also seems that A. M. Thrasher, P. P. & L. Co. manager, has an equity in part of the chicks. Anyhow it is a good display.

## ORDNANCE PROJECT GAINS MOMENTUM DURING PAST WEEK

### STRUCTURES RISE IN LONG ROWS

The new townsite of Ordnance, now being developed by the federal public housing authority at the request of the war department just south of the Umatilla ordnance depot, is rapidly gaining the appearance of a small city. A portion of the 350-housing units may be ready for occupancy the latter part of April and the remainder to be completed at intervals thereafter. The construction work is in charge of C. F. Davidson Co. of Tacoma, Wash., with various sub-contractors handling various phases of the work.

The project consists of 350 dwelling units in row houses of fours, sixes and eights in individual buildings. Other buildings will be a community building, a commercial building and other essential structures. It is situated on a tract of 80 1/2 acres on the Umatilla county side just south of the underpass access road to the depot.

Each dwelling unit consists of a living room, kitchen, bath and one, two or three bedrooms. The units have continuous concrete wall foundations with concrete slab floors covered with asphalt sheeting. The exterior walls are of hollow tile, with a stuccoed exterior and a plastered interior. The roofs, which seem almost flat, are covered with a three-ply mopped sheet roofing. The ceilings and walls are insulated with two-inch wool, and the windows are of the wood casement type, weatherstripped and screened.

Each unit will be furnished with a coal stove and range and a six cubic foot refrigerator. The community building will have a social hall, club-rooms, day nursery, kitchen, offices and repair shops. A large playground for softball, badminton, horseshoe pitching is to be developed with a large spray pool for youngsters.

The commercial building, which will house a market, drugstore, clothing and shoes, postoffice, shoe repair, tailor and cleaning, and beauty and barber shops, has not as yet been started but forms for the foundation will be erected soon. It is understood that the various business departments will be privately operated under lease.

A 16-inch well is now under construction and well diggers have reached a depth of 295 feet and are expecting to go to at least 400 feet before sufficient flow is obtained to service the entire project. A 100,000-gallon water tank will also be erected. Garbage will be disposed of in a large public incinerator.

Streets and paths will be completed as soon as building operations are completed. The entire project will be landscaped with a long windbreak fence and a double-row trees on the south and west of the project.

No announcement has been made as yet as to the tenancy of the units but it is understood that applications will be received later by a project manager. The site is outside of the military reservation and is primarily for civilian employes of the depot.
