**"Soldiers of Service"**

In wartime, America turns to its telephones. The daily volume of calling is the greatest we have ever handled.

The men and women of our company want to see these calls go through with the greatest satisfaction to everyone. Especially do they want to give the fastest possible service to those who need speed to help win the war.

Since more switchboards and other telephone equipment are not being made due to military demands upon materials, the co-operation of our patrons is deeply appreciated.

War-busy centers should be called by Long Distance only when absolutely necessary.

The "Soldiers of Service" at the telephone switchboards, on poles, trucks, at desks or wherever duty finds them, will continue to do their level best to see that you get friendly, courteous and efficient service.
