## Utah Coal Must Be Produced, Transported And Stored NOW!

A MESSAGE TO ALL COAL USERS:

Prior to the war, coal dealers and users could get all the coal they wanted, whenever they wanted it, merely ordering it. The coal supply, railroad facilities and distribution facilities were sufficient to meet all demands currently.

However, this picture has changed. The war industries, army camps, naval stations and others have taken much of the coal. The railroads are crowded with war materials—rightfully so. Retailers are short of manpower and trucks. These conditions are seriously menacing the coal supply for next winter.

Here is how you can help—Buy and store your next winter's supply now. This is absolutely the only way you will be assured of your next winter's supply.

## Happy Easter!

It is for every man to make his own happiness; to find in religion the particular kind of solace, inspiration and peace which his own soul requires. It matters little that one man's interpretation of belief differs from another: it matters much, only that he believe with conviction. He, Himself, the Great Teacher, would wish that every man take from his words whatever meaning he may require to help him live a better life, and to do more, happily, for his fellow-man.
