## WOOD FIRE CALLS OUT DEPARTMENT

Just by the way of something different, the fire siren sounded Thursday afternoon. A wood pile belonging to the Inland-Cooperative had caught fire. The damage was slight but was indicative of the dryness of outside materials and caution necessary during the next few months.

This was the first alarm in some weeks.

## CENTRAL CHURCH OF CHRIST

C. Warner, Pastor

The sermon topic for Sunday morning will be "The Characteristics of the Blood of Christ", and Sunday evening, "The Challenge of a Christian Life."

## NAVY ANNOUNCES NEW ENLISTMENT

The Navy today announced a re-opening of opportunities for 17-year-olds and men above the draft age to enlist with petty officer ratings in more than forty classifications of naval service.

At the same time, the Navy again is permitting the enlistment of men 38 to 50 with previous service in the regular Navy or Coast Guard at the rating they held at the time of discharge.

Lieut. George O. Hackett, officer in charge of the ten Navy recruiting stations in Eastern Washington, Oregon and the Idaho Panhandle, said that this is the first time since December 5, 1942, when all voluntary enlistment was temporarily halted, that enlistees can enter the service with petty officer ratings. Immediate ratings were granted only in special instances and in the Navy's Seabee ranks.

## CHRISTIAN SCIENCE COURSES

"The Universe, Including Man, Evolved by Atomic Forces" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 21.

The Golden Text was, "To us there is but one God, the Father, of whom are all things, and we in him" (1 Cor. 8:6).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And as he went out of the temple, one of his disciples saith unto him, Master, see what manner of stones and what buildings are here! And Jesus answering said unto him... there shall not be left one stone upon another, that shall not be thrown down. Heaven and earth shall pass away: but my words shall not pass away" (Mark 13:1,2,31).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The true theory of the universe, including man, is not in material history but in spiritual development. Inspired thought relinquishes a material, sensual, and mortal theory of the universe, and adopts the spiritual and immortal" (p.547).

"And, behold, I come quickly; and my reward is with me, to give every man according as his work shall be. Blessed are they that do his commandments, that they may have right to the tree of life, and may enter in through the gates into the city."

## Listen to Morgenthau-Marshall Tell Power of Payroll Savings!

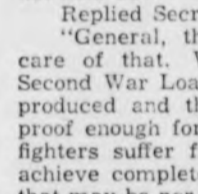

Washington, D. C.—How important is the average worker's war bond purchases out of his pay every payday in the grand strategy of the Allied High Command? Does the extent of his, or her War Bond allotment have a part in determining when, where and the strength of our military blows?

George C. Marshall

Any worker listening in on a recent conversation between General George C. Marshall, President Roosevelt's Chief of Staff, and Secretary of the Treasury Henry Morgenthau, Jr., learned the answers to these questions.

Said General Marshall: "Mr. Secretary, I want you to answer a question for me and to answer it with complete frankness. Can we military leaders plan to fight this war in an orderly way—in the surest and most effective manner—or must we take extraordinary risks for fear the money will not hold out?"

Henry Morgenthau, Jr.

Replied Secretary Morgenthau: "General, the American public will take care of that. What they have done in the Second War Loan drive—the money they have produced and the spirit they have shown—is proof enough for me that they will not let our fighters suffer from lack of support until we achieve complete victory, no matter how long that may be nor how much it may cost."

Up your War Bond allotment out of your wages today. Figure it out for yourself how much above 10 per cent it should be.
