**WEATHER NEARS 100 DEGREES**

The thermometer came dangerously near the 100 degree mark during the past week but failed to break into the three figure mark. Aside from the discomfort, the only serious results of the dry windy spell were the fires which caused considerable havoc about the country. It serves as a serious reminder for everyone to take every precaution to prevent the outbreaking of more fire. Brush and other debris should be cleaned away from buildings and if the weather is suitable dry grass should be burned from around all buildings.
