Hermiston Trading Co.

RED & WHITE STORE

NEWSPAPER IS OF INTEREST

An army publication, published "somewhere in the Pacific", has been received in Hermiston. The paper is censored for mailing purposes and apparently is printed solely for army men but contains numerous items that would be of interest to readers outside the army.

On Page 2 appears an item which especially interests Hermiston readers. It tells where Fire-chief Hamman (Glenn Hamman of Hermiston) made a hit with the boys in camp by taking his bulldozer and smoothing

out the camp. Hamman apparently is also in charge of the laundry as in another item it states that he is offering a case of beer as a reward for apprehending some rascal for some prank. The last sentence reads, (quoting Hamman): "Your chance to earn a case of beer, boys."

HERMISTON METHODIST CHURCH

Walter A. MacArthur, Minister

In these days of tension and strain, you are invited to discover the "peace that passeth all understanding" even Jesus Christ Our Lord, at one or more of our worship services.

- 11 a. m. Church School.
- 11 a. m. Morning worship.
- 7 p. m. Methodist Youth Fellowship.
- 8 p. m. Young Adults worship.

In the absence of the pastor, who expects to attend the Institute program. Rev. C. E. Calame will preach the sermon at the 11 o'clock worship this Sunday morning. Rev. Calame is a resident of Hermiston, and will bring a message on the theme, "Walking With God."

R.E.A. Story--

(Continued from Page One)

ments have been made to allow for the several later extensions. To date the cooperative is supplying energy for the Boardman Air Base, the Umatilla Ordnance Depot and the Federal Public Housing project at Ordinance in addition to furnishing the energy for the Civil Aeronautics Administration for two beacons in the area which the cooperative is serving.

The Cooperative as it is today is the result of the untiring efforts of the local rural people at large and particularly of a small group of leaders who were instrumental in the organizing of the project. This latter group includes Jay T. Pierson, who was then assistant county agent, R. G. Penney, who was identified with the Grange Cooperative at that time, J. H. Reid of Columbia district, A. C. Houghton of Irrigon, H. J. Ott of Columbia district, R. G. Saylor of Butter Creek, H. J. Bean of Echo, E. P. Dodd of Hermiston and E. D. Martin, then of Hermiston. It is difficult to say which of these contributed the most in the beginning as each did his very best.

In the later years, Mr. Martin who is now in Spokane, Wash., contributed his advice and judgment in addition to his time as president for a period of four years. Under his ad-

ministration the cooperative experienced a large portion of its present growth. H. J. Bean, however, who succeeded Mr. Martin in 1942, and who previous to that time acted as vice president of the Cooperative, has also contributed very materially to the success of the organization and at times his terse statements backed by a mature business experience in this section have acted as an orientation in setting up the policies which have been responsible for the success of the Cooperative in its continuing operation.

Fire Story--

(Continued from page 1)

erations began immediately following instructions from the insurance company.

The afternoon fire, of unknown origin, started as a minor grass fire but, fanned by a strong northeast wind, soon had traveled for several miles, cutting a swath approximately two miles wide. The leaping flames narrowly missed the Harry Connor ranch, including his chicken house with hundreds of young chickens, and continuing on over the hill. The most serious damage was done at the I. N. Hartsook farm where the house with all its contents and several out-buildings were completely destroyed. A pile of four tons of coal was still burning late Wednesday night.

Helpful townspeople attempted to save some of the furniture from the Hartsook home but were unable to save one single item. The rescue attempts almost proved fatal when the on-rushing flames completely surrounded the workers who were saved only by a small green patch of grass and trees. It was at first thought that all the Hartsook turkeys were destroyed but it was later discovered that they were no worse for the experience.

The speeding flames continued in a northeasterly direction, passed the D.

Hermiston, Oregon

D. Follett house, further over the hill and were finally stopped just north of the Walter Maffel farm. A call to the Umatilla Ordnance Depot brought a prompt reply from Col. A. S. Buyers and Fire Chief Mohr who in a very few minutes had equipment on the scene which proved very helpful in stopping the blaze which threatened Additional help was also obtained from the Pendleton Air Base. Prompt back-firing and help from the shovel and bucket brigade prevented the loss of more homes from the fire. The flames leaped and danced in the strong wind for a time looked like much more serious damage was in the offing. Farmers once more are being urged to burn during good weather, all dry grass and brush immediately surrounding their buildings as more fires are apt to start unless humidity rises. State police have been instructed to arrest anyone caught throwing lighted material from cars and extreme caution should be exercised by everyone to prevent similar occurrences.

Warm weather thirst quencher

When that old, red mercury starts climbing toward the top of the thermometer, be ready with thirst quencher that will buoy up your spirits! Simple to plan, simpler to make. Casual coolers... special occasion beverages... nourishing milk drinks that serve as part of a meal—any one of them will prove to be a welcome pickup when energy seems to be at low ebb. Don't let Mr. Mercury catch you unprepared!

SUGAR SYRUPS—One of the first requisites of cool beverages is the sweetening that can be added instantly. It stretches the sugar supply, too, because it blends with the drink completely. Have some on hand. Combine 1 cup sugar with 2 cups water, stir until dissolved, then boil rapidly for 10 minutes. Cool and store covered in the refrigerator until needed.

FRUIT ADES—Oranges, lemons and grapefruit are tops among thirst quencher ingredients. But don't forget other fresh fruit, too. Press the juice from ripe plums, peaches, apricots, nectarines or berries by forcing the fruits through a food press or coarse sieve. Mix the juice with water... or for that added sparkle, mix it with plain carbonated water. Add sugar syrup to taste, and serve frosty cold.

MILK SHAKES—HOME STYLE—When a light snack is in order, serve it in the form of a nourishing milk drink. Mix chilled milk with sugar syrup and flavoring, or with molasses, honey or corn syrup. A dash of plain carbonated water will give it that "ice cream soda fizz," and a bit of nutmeg dashed on top will add just enough spice.

FOR MORE ABOUT COOL DRINKS be sure to get your copy of Family Circle Magazine at your Safeway this week, and read Julia Lee Wright's article entitled "Cool Drinks for Warm Days." You'll find hot weather ideas galore.
