What You Buy With
WAR BONDS

4 for 1

U. S. destroyers and other anti-submarine vessels of the Navy are equipped with quadruple tubes, meaning they are capable of firing four torpedoes simultaneously, making it more difficult for the target to escape.

Modern warfare is the most expensive destruction the world has ever experienced both for the destroyed and the destroyer. There is no point where we can stop in this war this side of peace so all of us will be required to buy an extra \$100 Bond in the 3rd War Loan.
