In Belgium the Nazis now are selling property confiscated from loyal Belgians to residents co-operating with their Nazi masters; further complicating the fiscal affairs of that troubled land.

NO GOVERNMENT PURCHASE OF FIELD PEAS IN '44

There will be no government purchase program for Austrian winter field peas in 1944, A. R. Coppock, chairman of the county AAA committee, announced this week, advising county growers to plan their fall planting accordingly.

This means the chairman explained that the price of Austrian winter peas will not be supported at 5 cents a pound as it has been for the past two years, and farmers who plant peas should do so with the understanding that the seed will be sold on the open market.

While no announcement of the 1944 seed purchase program has been received, it appears definite that the program will be limited to common and hairy vetch, Mr. Coppock reported. The purchase prices for these

two crops under this year's program are 5 cents for common and 10 cents for hairy vetch, but there has been no indication as to next year's prices.

During the four years that the seed purchase program has been in operation, production of Austrian winter peas has expanded considerably in Umatilla county, the chairman pointed out. Approximately 10,500 acres are being harvested this year. Most of the seed is shipped to cotton belt states, where it is used to produce cover crops to control erosion and build soil fertility.
