## Grim Days Ahead In The War

Nearly two years have elapsed since Pearl Harbor and we are still deep in the war. With all we have accomplished and with a great war machine now in operation, the end of the struggle is not in sight. We Americans, except for our armed forces, are still comfortable at our homesides, but in our serious moments, are beginning to feel the great weight of the conflict, and know that its burdens must bear down on us more heavily from day to day, and month to month to month, and year to year. In this so called global warfare we find ourselves involved in no less than a 25,000 mile front.

We have mobilized \$250,000,000,000.00 and a fighting force of 7,000,000 men. It is estimated that 63,000,000 men and women are employed in war work of all kinds, including the armed forces. Our two ocean navy is the largest the world has ever known, and the numbers of our fighting planes, our transport ships, bases, tanks, guns, submarines, and all the most modern equipments of war, almost stagger the imagination.

And yet the fierceness of the struggle also staggers our hopes and expectations, and sobers our optimism for early victory. The result must be to reduce us to the grim determination to win at whatever cost, and win we will, though it takes all our man power and woman power, and all our money and wealth and resources.

We know now that it is a world wide fight for the kind of freedom that gave this nation birth, and for which we have engaged in several long wars to sustain and advance. No dictator, or tyrannical ideologies, will be allowed to control our destinies. We are set, fixed, obligated by the blood of our forefathers, determined, pledged to justice, and the blessings of all our freedoms, and our American ways of life to fight on and maintain the highest degrees of modern civilization.

There are grim days ahead and much suffering, but our hearts are still strong and our faith in the end has not weakened since the blast at Pearl Harbor.

## CHRISTIAN SCIENCE CHURCHES

"UNREALITY" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, October 3.

The Golden Text was, "If God be for us, who can be against us?" (Rom. 8:31).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "The Lord hath brought forth our righteousness: come, and let us declare in Zion the work of the Lord our God. He hath made the earth by his power, he hath established the world by his wisdom, and hath stretched out the heaven by his understanding" (Jer. 51:10, 15).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "From beginning to end, whatever is mortal is composed of material human beliefs and of nothing else. That only is real which reflects God. . . . Everything good or worthy, God made. Whatever is valueless or baneful, He did not make,—hence its unreality" (Pp 478, 525).

YOU CAN SEE when traffic jams a highway or people stand in the aisles of a train.

But you can't tell when Long Distance lines are crowded by looking at a telephone.

When they are, the operator will say—"Please limit your call to 5 minutes. Others are waiting."

That's a mighty good rule for these days. Helps you. Helps us. Helps the war.
