**FARMERS MUST
FILE INCOME TAX
BY DECEMBER 15**

Farmers who have sufficient income to require filing a declaration of estimated 1943 income and Victory tax are required to file and make a payment on or before December 15, unless they complied with this requirement on the September 15 date that applied to most other persons, explains Robert E. Hannegan, Commissioner of Internal Revenue. Farmers and others making their first report this time will receive no declaration forms but must ask for them if they do not still have the forms mailed them in August.

Because of the difficulty farmers have in estimating their tax, they have been given until December 15 to file their declarations, whereas others were required to file September 15. Farmers are also given greater leeway in estimating and are not subject to penalty unless they underestimate their tax by more than 33 and one-third per cent.

Those persons, including farmers, who must file on or before December 15 are:

1. Persons who did file on or before September 15 but who underestimated their tax by more than 20 per cent (more than 33 and one-third per cent in the case of farmers) and who should file "amended declarations" to avoid penalties.

2. Persons who did not file in September because their estimated income at that time was insufficient to require filing, but now meet with any one of the following requirements. These requirements also determine which farmers have to file income declarations.

a. Anyone who expects to have during 1943 more than \$100 gross income from a source outside of wages which are subject to withholding and who also expects sufficient gross income to require filing an income tax return (\$500 for a single person, \$1,200 for a married couple, or \$624 for an individual married person).

b. Any single person expecting wages of more than \$2,700 subject to withholding during the year.

c. Any married person or any married couple expecting individually or together more than \$3,500 from wages subject to withholding during this year.

d. Any person who was required to file an income tax return for 1942 and who expects his wages in 1943 to be less than in 1942.

Persons who have questions should address them to their local Collector of Internal Revenue. Collectors' offices again will provide advice and technical assistance to taxpayers who request it. Local Collectors will send bills to taxpayers who filed declarations in September and who have an instalment to pay December 15.
