5000 cars junked every day by Wartime Stop and Go!

5000 cars every day, 150,000 a month! That's how fast Wartime Stop and Go is draining America's remaining automobiles!

In wartime it's all Stop and Go—the hardest kind of driving there is. And neglect means trouble—burned out bearings, scored pistons, ruined batteries . . . at a time when replacements are hard to get.

Don't take chances! Shell's Shelllubrication service, designed to meet Stop and Go driving conditions, was never more important than now. It will help your car outlast the duration.
Shell Service Stations and Shell Dealers offering this service will inspect your car—show you just what services it requires. And, when the job is done, you will receive the Shelllubrication diagram—receipt showing every step taken.
