**The TRUTH**

**ABOUT TIRES**

IS THAT

**ONLY AN INSIDE INSPECTION**

Can tell about Fabric Breaks which do not show from the outside until too late. It's like this:

Tires less than a year old are usually sound, but OLDER TIRES (which are most of them) GENERALLY SHOW FABRIC DAMAGE SPOTS, often started by a puncture, severe bruise or rock cut which occurred so long ago the owner has probably forgotten all about it.

**AN INSIDE INSPECTION AND THEN VULCANIZED REPAIR OF ALL WEAK SPOTS WILL GIVE YOU MUCH EXTRA MILEAGE**

business letters. Finger gymnastics, typing with the rhythm timer, and typing with the martial music of phonograph records are some of the class activities which add interest and zest to the night sessions.

Shorthand classes are divided into groups for dictation and manual review. Beginning students are learning manual principles and brief forms. The advanced group takes business letters and articles from dictation from phonograph records at 80 and 100 words a minute. They are building vocabulary, reviewing phrases, brief forms, and the most commonly used words.
