OUR COUNTRY NEEDS MONEY TO KEEP THE BOYS PROTECTED!

Men who are fighting for us, ready to die for us, expect us at home to back them up 100%. We will not let them down. We must work harder and harder so we can buy more and more war bonds.

We're trying hard to supply all in work clothing at reasonable prices, thereby serving the home front as best we can. Let's buy only what we need badly, and invest the balance in War Bonds!

WHEN SOMETHING IN YOUR BUDGET COSTS LESS

Perhaps you feel that most living costs are always headed in the same direction—UP. But there is one item over which you can have a sign of relief—the cost of your insurance. For example: the average rate for fire insurance has declined 40% in the past thirty years, and more than 20% in the past ten years.

This is an economic achievement in which all Americans can take pride. It reflects the measures taken by property owners and municipalities to reduce fire losses. It reflects the promptness with which insurance companies have passed savings on to policyholders. Also very important in this picture are the services of local agents—the men who fit modern insurance to your individual needs—who give you prompt assistance in event of loss. This agency is in, of and for this community. We are at your service.

See us today for full protection from fire.
