Friends Are Priceless...

We've always known that, haven't we? But in these trying times more than ever, and here at Saylor's we try to make friends, not by trying to sell, but by showing the best of everything for men, women and children to wear, so that you may buy at your leisure with pleasure, just what you need.

Saylor's are good buyers and price their merchandise as low as possible. They have lots of friends—we're proud to be working for them. We hope and believe we've made friends too. To hold that friendship is our constant aim. Every opportunity to serve will find us giving our very best.

VITAL WAR MATERIALS SAVED BY THE NEW FORD TRACTOR

Because of the Ferguson System—a new way of attaching implements and controlling them in the soil—the new Ford Tractor can be made hundreds of pounds lighter than other tractors of similar capacity. This saving of vital materials totals more than half a ton for each Ford Tractor with 2-bottom Ferguson Plow. That can be your contribution to National Defense—and at the same time you save yourself money in original cost, operating expense and upkeep.
