A SOLDIER TALKS

(Contributed by Corp. Bud McCourt of Stanfield.)

So you're sick of the way the country's run, and you're sick of the way the rationing's done.
And you're sick of standing around in a line, you're sick, you say—well, that's just fine.
So am I sick of the sun and the heat, and I'm sick of the feel of my aching feet.
And I'm sick of the mud and the jungle flies, and I'm sick of the stench when the night mists rise,
And I'm sick of the siren's wailing shriek, and I'm sick of the groans of the wounded and weak,
And I'm sick of the sound of the bomber's dive, and I'm sick of seeing the dead alive.
I'm sick of the roar and the noise and the din, I'm sick of the taste of food from a tin,
And I'm sick of the slaughter—I'm sick to my soul, I'm sick of playing a killer's role,
I'm sick of blood and of death and the smell, and I'm even sick of myself as well.
But I'm sicker still of a tyrant's rule, and conquered lands where the wild beasts drool,
And I'm cured darned quick when I

SAYLOR'S

think of the day, when all this hell will be out of the way,
When none of this mess will have been in vain, and the lights of the world will blaze again,
And things will be as they were before, and kids will laugh in the streets once more,
And the Axis' flags will be dipped and furlled, and God looks down on a peaceful world.

CHRISTIAN SCIENCE CHURCHES

"MAN" was the subject of the Lesson - Sermon in all Churches of Christ, Scientist, on Sunday, March 5.
The Golden Text was, "God created man in his own image, in the image of God created he him; male and female created he them" (Gen. 1:27).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "God that made the world, and all things therein, seeing that he is Lord of heaven and earth, dwelleth not in temples made with hands. . . For in him we live, and move, and have our being; as certain also of your own poets have said, for we are also his offspring" (Acts 17:24, 28).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In Science man is the offspring of Spirit. The beautiful, good, and pure constitute his ancestry. His origin is not, like that of mortals, in brute instinct, nor does he pass through material conditions prior to reaching intelligence. Spirit is his primitive and ultimate source of being; God is his Father, and Life is the law of his being" (p. 63).
