You cannot spell victory with an absent "T". A soldier goes A.W.O.L. when a bullet hits him. He's on the job always. Let's take a look at the Umatilla Ordnance Depot. 1160 Man days or 9,276 man hours were lost in the month of February from workers who were A.W.O.L. and A. W. O. P. Let's see if we can't cut that figure down to one that we would be proud of.

Do you want a cold storage box?

For many years the residents of this area have been served by Cold Storage Lockers at the Umatilla Cooperative Creamery. Due to the growth of the community, the building of the Umatilla Ordnance Depot and other construction, the population has more than tripled. At the present time the creamery lockers are insufficient with a waiting list of prospective users. Upon consultation, it has been learned that the creamery does not intend to enlarge its capacity of cold storage lockers, leaving a shortage of this service.

Frank P. Sargent of Hermiston is contemplating the construction of a Cold Storage Locker building in Hermiston. However, he is faced with these obstacles—obtaining necessary priorities for construction and also the definite proof of the need for new lockers here.

Here is how you can help

In order for Mr. Sargent to begin construction, he must have the following proof of evidence. A prospective locker box renter must be a producer of items he wishes to place in his box—Vegetables, Fruits, Dairy Products, etc. At least 60% of the renters must be producers and 40% may be non-producers. A producer is defined as one raising a Victory garden, owning a fruit orchard, raising his own livestock, etc.

Furthermore, Mr. Sargent is required to have two-thirds of the boxes rented prior to construction. Those interested in renting boxes are asked to go to the First National Bank of Hermiston and put in escrow one year's rent in advance—the cost will be \$1 per cubic foot per year (with a minimum of 8 cubic feet). A proper receipt will be given and the money refunded if the project does not materialize.

The Hermiston Chamber of Commerce heartily endorses Mr. Sargent's project and cordially invites participation by the residents of this area. It is a project which is needed and will prove beneficial.
