**Our Homes and Farms are Arsenals for Victory**

*Fight Waste*

YES... America's productive might is setting records. But the job is far from done. Our armed forces must have new supplies for tomorrow, next week, and next month. So long as the great battles still lie ahead, there must be more arms... more food... more manpower... more equipment of all kinds. And the only way to get them is to SAVE THEM here at home.

Today, we are all asked to redouble our efforts in helping America fight waste. Make your home a real Arsenal for Victory!

**These are important resources we must save...**

- FOOD**  
Grow all you can—buy carefully—share and preserve.
- FUELS**  
Household fuels are war fuels too—right at the head of the critical list.
- UTILITIES**  
Think of your electric service, your water and telephone, in terms of the manpower and critical materials they involve. Use what you need—but need what you use.
- HOUSEHOLD EQUIPMENT**  
Keep all equipment in good repair. Use it carefully, make it last. Share any equipment you're not using by selling it to someone in need.
- TEXTILES and LEATHERS**  
It's patriotic to "wear it out" and make it do. Buy only what is needed.
- TRANSPORTATION**  
Travel less—ship only what is necessary—share and care for your car.
- IDLE MATERIALS**  
Help your local salvage groups save fats, scrap metals, tin cans, paper and all other materials that may be requested.

**DAISY SAYS:**  
"One of the most important beverages in every home is milk. Thirst quenching, it's satisfying and health building food as well. Follow Daisy's advice and have an extra bottle in your ice box to satisfy thirst and appetite."
